### PART III

A pass-through entity owner who is a resident of Arkansas must report income from sources within and outside Arkansas. Nonresidents only report their Arkansas apportioned share of income. The AR K-1 has two columns for most boxes in Part III. The first column is income allocated and apportioned to Arkansas. This column should be completed by both resident and nonresident partners and shareholders. The second column should be completed by resident owners only. The column should include the residents share of income (loss) from all sources, including income (loss) earned from other states.

For example, a multistate entity has \$100,000.00 of income and 30% is apportioned to Arkansas. The entity has a nonresident and resident owner each receiving 50% of income (loss). On AR K-1, the entity would report \$15,000.00 in Column 1, Box 1a, for both the nonresident and resident owner. The entity would report \$50,000.00, income from all sources, in Column 2, Box 1b, for the resident owner.

The instructions for each line pertain to the first column (A) with the understanding that Arkansas residents will complete both columns and report income from **all sources as adjusted by applicable Arkansas law** in the second column (B).
