REMINDERS

Special Information for tax years beginning on or after January 1, 2018: Act 482 of 2017 provides that a partnership filing an Arkansas partnership return and has income from both within and without Arkansas shall apportion income to Arkansas under the Uniform Division of Income for Tax Purposes Act. If the apportionment of income does not fairly represent the partnership's business activity in this state, the partnership may petition the Department of Finance and Administration for an exception. Any such petition should be address to the following:

Partnerships and LLCs File Same as Federal (Act 965 of 2003)

This act adopts the federal "check the box" regulations and requires partnerships and LLCs to file in the same manner in which the entity files and pays federal income tax.

Section 179 Depreciation

Act 580 of 2015 adopted Internal Revenue Code Section 179, **as in effect on January 1, 2009**, regarding depreciation and expensing of property for the purpose of computing Arkansas income tax liability. The maximum deduction allowed for property placed in service during the tax year is \$25,000. The deduction is decreased "dollar for dollar" for property over \$200,000, and no deduction is allowed for property over \$225,000.

You can find more information about Arkansas tax code by visiting the Department of Finance and Administration web site at www.arkansas.gov/incometax

Act 1283 of 1999. Under this act, income attributable to an investment partnership's qualifying investment securities would not be taxed if distributed to a nonresident partner. "Investment partnership" is defined as a partnership with at least 90% of its assets comprised of investment securities plus office equipment. Only income derived from dividends, interest and gains would be excluded from a nonresident partner's income. The provisions of this act do not apply to income derived from investment activity that is interrelated with any trade or business activity of the nonresident or an Arkansas entity in which the nonresident owns an interest.

GENERAL INSTRUCTIONS

Form AR1050 is used to file the income of a partnership. Every domestic or foreign partnership doing business within the State of Arkansas or in receipt of income from Arkansas sources, regardless of amount, must file an AR1050. This form is also to be used by business organizations that are two or more member limited liability companies unless the LLC has “checked the box” to file as a corporation for federal tax purposes. **(Nonresident partners may choose to be included in an Arkansas composite filing. For details see instructions for AR1000CR.)**

WHEN TO FILE

The due date is April 15th for calendar year filers. Fiscal year filers must file on or before the fifteenth (15th) day of the fourth (4th) month following the close of the fiscal year.

EXTENSION OF TIME TO FILE

If you request an extension of time to file your federal partnership tax return (with federal Form 7004) you can receive the same extension on your state return. If you do not file a federal extension, you can request a 180 day Arkansas extension using Form AR1055-PE before the filing date of April 15th (for calendar year filers). Send Form AR1055-PE to:

Arkansas Partnership Income Tax Return Instructions (AR1050)

CAUTION: Report only trade or business activity income on page 1 of the AR1050. Do not report Section 179 deductions, charitable contributions, net rental real estate income, other rental activities, royalties, capital gains (losses), interest, dividends, and other income on these lines. Page 1, Column B of the AR1050 should include trade or business activity on an Arkansas basis. All other separately stated items such as interest, dividends, capital gains, etc., should be reported on Schedule K, page 4, which will be further reported on each partner's AR K-1.

- Line 6.** Subtract cost of goods sold, Line 5, from gross receipts or sales, Line 4 and enter the difference.
- Line 7.** Enter the income from any other partnerships or fiduciaries of which is defined as business income for the filing partnership. Attach schedule/federal schedule.

Enter each partner's name, address, Social Security Number, and share of the business net income, whether distributed or not. If the distributed income is determined on a basis other than a percentage basis, attach an explanatory statement.

SCHEDULE A - INSTRUCTIONS

Part I: Depreciation Reconciliation

Depreciation reconciliation is required to be completed if the partnership has a depreciation deduction of any amount.

- Line 1:** Enter the total amount of federal depreciation claimed on line 22 of Form 4562 and other depreciation included elsewhere. Note: Section 179 depreciation should not be included. Instead, the deduction is to be reported on Schedule K, Line 13, which flows to each partner's AR K-1.
- Line 2:** Subtract bonus depreciation (if applicable) reported on federal Form 4562, Line 25 and Line 14 from Line 1.

APPORTIONMENT INSTRUCTIONS

For Taxpayers with Income from Sources Within and Without the State

Multistate partnerships should complete Part II and Part III of Schedule A. The total income taxable to Arkansas from Part III, Line 6 should be reported on Line 24 Columns A and B of AR1050. Column A of the AR1050 should be completed by multistate partnerships. However, Column B, Lines 4-23 will not be completed for multistate partnerships.

Business Income is defined in ACA 26-51-701(a) as income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management and disposition of the property constitute integral parts of the taxpayer's trade or business operations. In essence, all income which arises from the conduct of trade or business operations of a taxpayer is business income. Income of any type or class and from any source is business income if it arises from transactions and activity occurring in the regular course of a trade or business. In general, all transactions and activities of the taxpayer's economic enterprise as a whole constitute the

taxpayer's trade or business and will be considered "Business Income", unless otherwise excluded by Arkansas law. ACA 26-51-701(e) defines Nonbusiness income as all income other than business income.

Unitary Determination of Intangible Income: Interest, dividends (less than 80% directly owned), rents, royalties and gains and losses from multistate partnerships are apportionable to Arkansas if a unitary business relationship exists between the intangible income and the State of Arkansas. Generally, a unitary business relationship will exist when an activity conducted in one state benefits and is benefited by an activity conducted in another state.

Apportionment Formula:

In general, taxpayers with income derived from activities both within and without the State are required to apportion Business Income and allocate the Nonbusiness income using the following factors:

All multistate partnerships apportion business income to this State by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor, plus double the sales factor, and the denominator of which is four (4). If a taxpayer does not have all four (4) factors, the denominator shall be the same as the number of entries other than zero (0) that apply to the total (everywhere) amounts of the property, payroll and sales factors. When double weighted, the sales factor counts as two (2).

Financial Institutions must use the single weighted sales factor. Construction companies, pipelines, publishing companies, railroads, and TV and radio broadcasters must utilize the double weighted sales factor apportionment method with factor modifications.

Change of Method:

Prior approval Required Before Deviation From the Allocation and Apportionment Method: If the allocation and apportionment provisions as set out above do not fairly represent the extent of the taxpayer's business activity in this State, the taxpayer may petition for, or the Commissioner of Revenue, Department of Finance and Administration may require in respect to all or any part of the taxpayer's business activity, if reasonable:

- A) Separate accounting
- B) The exclusion of any one or more factors;
- C) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this State, or
- D) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

To "petition for" and approved by DFA shall mean a formal written request submitted and approved prior to the filing of a return.

Line 4: Line 1 + total amount from Line 2 – total amount from Line 3 = Line 4, Total Apportionable Income. Continue to Part III.

Part III: Apportionment Factor

Column A is for Amounts in Arkansas; Column B is the Total Everywhere; Column C is the Percentage of Column (A)÷(B). Calculate all percentages to six (6) places beyond whole percentages. Example 26.123456%

Property Factor: The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this State during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period. (ACA 26-51- 710).

Line 1. Enter Property Used in Business

Line a. Tangible Assets Used in Business and Inventories.

Payroll Factor: The payroll factor is a fraction, the numerator of which is the total amount paid in this State during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period. The payroll factor shall include only that compensation which is included in the computation of the apportionable income tax base for the taxable year. (ACA 26-51-713 and ACA 26-51- 1405)

Column A is total compensation paid within Arkansas; Column B is total compensation paid everywhere during the tax year; Column C is the percentage of Column (A) ÷ (B).

Line 2. Enter Salaries, Wages, Commissions and Other Compensation Related to the Production of Business.

Sales/Receipts Factor: The receipts factor is a fraction, the numerator of which is the total sales of the taxpayer in this State during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor shall include only those receipts which constitute business income and are included in the computation of the apportionable income base for the taxable year. Arkansas requires receipts to be gross receipts instead of net receipts. Financial institutions cannot double weight the sales/receipts factor. (ACA 26-51-715 and ACA 26-51-1403).

Line 3. Sales/Receipt

(a) Enter Destination Shipped from Within Arkansas. Sale of property that is delivered or shipped by a seller located in Arkansas to a purchaser located in Arkansas.

(e) Enter Other Gross Receipts: Includes items such as interest income, other income, proceeds from sales of assets, rental income. Attach schedule.

Gross receipts from transactions other than sales of tangible personal property are attributed to Arkansas if: The income producing activity is performed entirely within Arkansas or the income producing activity is performed both inside and outside of Arkansas, in which event the portion of income reportable to Arkansas shall be determined by utilizing the formula for apportioning income to Arkansas during the year of the sale by including the income from income producing activity in the numerator and denominator of the taxpayer's sales factor.

(f) Enter Total Sales/Receipts: (Add Lines 3a through 3e). Divide Line 3f in Column A by Line 3f in Column B to arrive at the percentage for Line 3f in Column C.
