State Questions, Requirements, Standards and Recommendations

This section represents the state-specific requirements and standards for tax software providers.

Standards and Requirements for Confirmation of Specific Data Elements

Software Vendors cannot release Arkansas income tax forms in software products until approval has been received by the State of Arkansas.

Arkansas income tax returns cannot be prepared nor can taxpayers receive an "early look" until all new year changes have been updated to the software product.

All updates must be updated in the tax software before allowing printing of tax returns.

All software products must have a two step verification for routing and account numbers.

Transferring data year-over-year that is not initially entered accurately causes issues with processing tax returns. The following items should not be transferred year over year:

- State driver's license data elements
- State withholding account numbers
- Bank account numbers
- State identity PIN's
- Do not mask or truncate taxpayer information

Software Monitoring

Arkansas is committed to providing secure, efficient and accurate returns processing to all who are required to file a tax return in Arkansas. Arkansas places high standards on itself, its filers, and its software providers to deliver on this commitment to our Arkansas taxpayers.

To meet this commitment, Arkansas will be implementing monitoring tools that help us to evaluate how each software provider is performing, is adhering to Arkansas specific requirements and meets the tax preparation needs of Arkansas taxpayers. Software providers who have actively supported Arkansas Tax e-File programs during calendar / filing season 2018 may receive a report detailing the results of the monitoring.

Going forward annually, Arkansas may begin providing guidance as to the minimum standard requirements that a software vendor must meet to be eligible to participate and support Arkansas e-File programs.

Arkansas Special Statement

Arkansas reserves the right to decline, decertify, revoke or limit approval or acceptance of any software provider's product and thereby refuse to accept any additional returns from such software product that does not adhere to the specified requirements.

Should your product be decertified by Arkansas, you agree to remove references asserting your product's ability to service Arkansas taxes from all public materials within 48 hours notice from Arkansas, and to provide immediate notice to any clients in the process of filing with Arkansas before ceasing Arkansas services.

State Specific Questions

1. What refund products or payment vehicles do you offer your customers? If you partner with an entity to provide refunds (e.g. Amazon.com or other pre-paid cards), please provide the names and bank routing numbers (RTNs) of each company. (Attach a separate sheet if necessary)

2. Does this product offer Direct Debit for return payment? ☐ Partial payments ☐ Full payment ☐ Both

3. Does this product allow Direct Debit for estimated payments? ☐ Yes ☐ No
