2024 Tax Software Provider Delaware Division of Revenue Letter of Intent

This Letter of Intent (LOI) sets forth the specific questions, requirements, and standards for tax software providers for the Delaware Division of Revenue. By submitting this registration form to the Division, you are agreeing to meet our standards for software provider registration, tax preparation software (DIY or professional), and substitute forms.

Failure to meet the standards or requirements set forth in this specific LOI may result in the denial of your application or the removal of your organization as an approved software provider, and the rejection of all electronic or paper returns submitted using your products.

Please complete a separate LOI form for each unique product your company offers.

Note: If you are a new software Provider who has not filed city/state income tax returns with any city or state agencies, you must have passed assurance testing with the IRS. Attach documentation from the IRS demonstrating you have successfully tested with the IRS.

Questions, Requirements, Standards and Recommendations

This section represents the jurisdiction-specific requirements and standards for tax software providers.

Standards and Requirements for Confirmation of Specific Data Elements

1. Do you support unlinked jurisdictional (city/state) returns?

For tax year 2024, Delaware will not require confirmation of any specific data elements. However, on individual income tax returns, we encourage the confirmation of the previous year's state adjusted gross income and net refund or net balance due amounts.

Data Breach Reporting

All software providers executing this agreement are subject to the data breach security laws and/or regulations of the **Delaware Division of Revenue noted below**, including, without limitation, provisions regarding who must comply with the law, definitions of "personally identifiable information," what constitutes a breach, requirements for notice, and any exemptions.

On August 17, 2017, Governor John Carney signed into law House Substitute 1 for House Bill 180, legislation that requires companies to provide additional protections for Delawareans, whose personal information may have been compromised in a computer breach, including additional notifications and free credit monitoring services. (Amendments to Delaware Code Title 6, § 12B-100, § 12B-101, § 12B-102, § 12B-103, § 12B-104)
