Note: Reproduced forms must meet the requirements as established in this document and our current Forms Reproduction Policy.

Schedule CR (Rev. 2022)

General Information and Scannable Specifications

This document provides software vendors with the requirements for reproducing Schedule CR. Schedule CR is designed for electronic scanning that permits faster processing with fewer errors. Software developers who reproduce, develop, or distribute Schedule CR must create the form so the variable data (specified fields containing

taxpayer information) are printed in a fixed format that can be read by the Department's IBML scanners.

Substitute scannable forms **MUST** meet the requirements as established in this document and our current Forms Reproduction Policy, and be approved prior to release or distribution.

GENERAL INFORMATION**1. Substitute Form**

- We highly recommend you use the Department's official Form Schedule CR PDF.
- If you do not use the Department's official PDF, the substitute form must match the Department's form in layout and appearance including **bold** and/or *italics* fonts as they appear on the official form.
- Lines of text in a paragraph must break at the same location as the official form.
- All forms and variable data must have a high standard of legibility for printing.
- Photocopies of the scannable form must not be submitted to the Department for processing.
- Substitute scannable forms must be proofread prior to submission.

2. Paper and Ink

- The paper size is 8.5 inches by 11 inches, the same size as the Department's original form. The paper weight must be at least 20 pound white bond and the page orientation is portrait.
- Black ink should be used in printing the text on the form and the variable data.

3. Fonts

- The form was designed using the following font:
 1. Arial
 2. Times New Roman
- The following fonts and sizes should be used for the form number and revision year located at the top left corner of the form:
 1. SCHEDULE CR: 10 pt Arial bold
 2. REV. 2022: 10 pt Arial
- The following font and size should be used for the form number located at the bottom right corner of the form:
 1. SCHEDULE CR (REV. 2022): 10 pt Arial bold

4. Variable Data

- All variable data fields must utilize 12 pt Courier New font.
- All variable data fields require exact placement.
- Print all alpha characters uppercase.
- Use a bold X (**X**) as a checkbox indicator. See exhibit for exact placement. The use of a checkmark is not acceptable.

5. Variable Data Delimiters

- Tax Year Beginning and Tax Year Ending must be printed with dash (-) delimiters. For example:
MM-DD-YYYY
(2 digits for month, followed by a dash (-), followed by 2 digits for day, followed by a dash (-), followed by 4 digits for the tax year ending).

6. Dollar Amounts

123456789

- Do not use commas as thousand separators.
- Do not use leading dollar signs.
- Amounts are right justified.
- Amounts must be rounded. Dollar and cent signs should not be used when the field is rounded to whole dollars.

7. Testing and Approval of the Scannable Form

- A minimum of 5 hardcopy test samples must be provided to ensure proper testing including 1 hardcopy test sample that contains all maximized fields (one alpha "X" or numeric "9" character space with no leading or trailing spaces).
- Test samples must be originals. Photocopies, fax submissions, etc. will not be accepted.
- Test samples must be populated with unique sample variable data showing different scenarios.
- It will require 1 to 2 weeks, upon receipt by the Department, to verify the accuracy of the submitted samples.
- Approval of the facsimile must be obtained from the Department **prior** to filing.

- Schedule CR (Rev. 2022) cannot be filed until 2023.

SCANNABLE SPECIFICATIONS

1. Layout

- The form was designed on a 6x10 grid. See exhibits.
- Open space around variable data fields should be adhered to as much as possible except for the areas that do not require optical character recognition. Do not place any additional information in these areas.

2. Hawaii Vendor I.D. Number

- Print your 2-digit Hawaii Vendor I.D. Number following the "ID NO" label at the following positions:
 1. Pages 1 - 2: The 2-digit Hawaii Vendor I.D. Number should begin at column 42, row 64.
- The Hawaii Vendor I.D. Number must utilize 12 pt Courier New font.

3. QR Code

- A QR code is specific to the form. The property of the 2D symbology QR code is measured in CM.
- Placement of the QR code is as follows (see exhibit for exact placement):
 1. Pages 1 - 2: The left bottom corner of the QR code is at the beginning of column 6 and at the bottom of row 9.
- Height of the QR code is 0.5 inch.
- Length of the QR code is 0.5 inch.
- Narrow Module Size is set to 0.18.
- Margin is set to 0.18.
- Open space surrounding the QR code should be adhered to as much as possible.
- DO NOT stretch the QR code image.
- The required QR code for page 1 is SCHCR_T 2022A 01 VIDXX

The required QR code for page 2 is
SCHCR_T 2022A 02 VIDXX

The QR code includes the form number (SCHCR), an underscore, type of form (T), space, 4-digit form year (2022), 1-letter revision indicator (A), space, 2-digit page number (01) or (02), space, vendor

I.D. label (VID), and your 2-digit Hawaii Vendor I.D. Number (XX). There are no hyphens.

- The human readable text for the QR code MUST be printed below the QR code utilizing 6 pt Arial font. Placement of the human readable text is as follows (see exhibits for exact placement):
 1. Pages 1 - 2: Column 6, row 10
- Please do not print the outline around the human readable text and QR code. The outline is used to show the placement of the human readable text and QR code.
- DO NOT use Windows Metafile Format (wmf). This format causes a very low read rate by the Department's IBML scanners.

4. Form Serial Number

- The form serial number MUST be printed at column 6, row 64, utilizing 12 pt Courier New font.
- The required form serial number for page 1 is: SCR1E3T4

The required form serial number for page 2 is: SCR2E3T4

5. Acetate overlays

- Acetate overlays will assist in the exact data field placement. Verify your form samples with the overlays prior to submitting them for testing. If the samples do not match the overlays within 1/16 inch, do not submit them for approval as they will be rejected.
- Acetate overlays will be mailed to vendors who submitted a Letter of Intent to participate in the Forms Reproduction Program and who will be reproducing Schedule CR. If you did not receive the acetate overlays, please contact the Forms Coordinator.
