Introduction

The Idaho State Tax Commission (ISTC) in conjunction with the Internal Revenue Service (IRS), accepts state individual, corporate, S corporate, partnership, and fiduciary income tax returns and corresponding forms for tax year through the Modernized eFile system (MeF). The accepted forms are identified in the General Information section.

The transmission method will be a web service using Simple Object Access Protocol (SOAP) with attachments messaging. The return data will be formatted using Extensible Markup Language (XML). Authorized eFile providers, also known as Electronic Return Originators (EROs), can submit returns to the IRS MeF system for federal and state return processing. State returns can be submitted with a federal return with a state return attached, called a “linked” return, or as a state return, known as an “unlinked” submission. Each return (linked or unlinked) must be in a separate submission. Multiple submissions may be contained in a single message payload. Software developers must test with ISTC before submitting live linked or unlinked returns.

Acknowledgment System

1. ISTC will generate an acknowledgment of acceptance or rejection for all returns received. The acknowledgment record will be in the standardized format approved and agreed upon by the IRS, state agencies, transmitters, and software developers.
2. Transmitters and software developers should allow one business day to receive the state acknowledgment before contacting ISTC.

3.71%	0.037100
30.0000%	0.300000
37.0829%	0.370829

7. The Idaho TY Electronic Filing (MeF) program will support business returns for tax years ending 12/31/2023 through 12/31/2025.

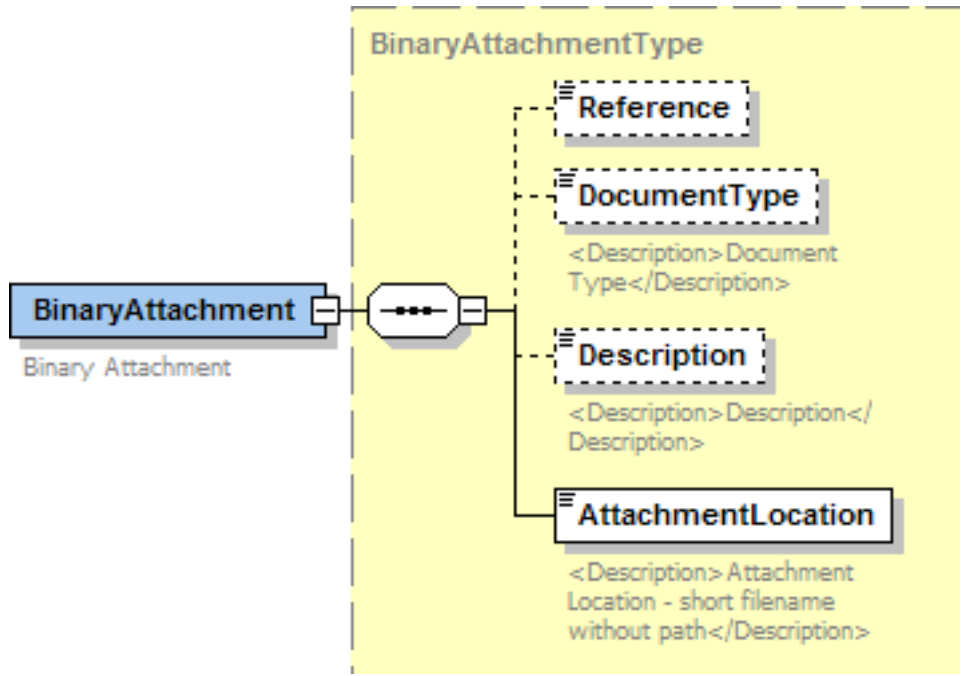

Schemas and Transmission Specifications

1. Idaho adopted the eStandards recommended structure in the development of forms-based schemas.
2. The eStandards structure includes standardized schemas for header and binary attachments. Idaho will use a subset of the eStandards Financial Transaction schema for direct deposit and direct debit information of individual income tax returns. Direct deposit isn't available for business refunds, but direct debit is available for business payments. **Idaho doesn't support International ACH transactions; if International Account Transactions (IAT) is indicated, a paper check will be sent to the taxpayer.**

3. Software developers should apply data from the tax forms to the appropriate data element from the XML schema.
4. All XML data must be well formed.
5. ISTC rejects state returns for reasons outlined in Appendix B.

6. Returns filed in XML format with SOAP attachments allow for binary attachments to the submission. These attachments could consist of schedules, balance sheets, statement records, or other types of documentation as outlined in Appendix C. The allowed file type for attachments is file extension .PDF. The file order of attachments and procedures must follow the IRS requirements for binary attachments listed in [IRS Publication 4164](#). ISTC allows for binary attachments to the state return with the appropriate naming convention for the description element.

Description = name as defined in Appendix C: PDFDescription

DocumentType = PDF

AttachmentLocation = actual name of the attached PDF.

7. ISTC supports simple and complex e-file types as outlined in Appendix C.

8. Other packaging and guidelines:

- A linked submission contains a state return and a copy of the federal return.
 - Each linked state return must include a complete copy of the federal return as submitted to the IRS and any attachments associated with that federal return.
 - The copy of the federal return must be submitted in the agreed-upon IRS XML format.
- Each submission must be a separate file.
- If the IRS rejects a fed/state submission, the state will not receive the state return portion. The fed/state submission must be re-submitted.
- Each submission must be in Zip archive format as outlined in [IRS Publication 4164](#), *Modernized e-File (MeF) Guide for Software Developers and Transmitters*.
- The SOAP message itself must not be compressed or zipped.
- The state manifest must follow the guidelines provided by the IRS with the following Idaho specific items.
 - SubmissionID= 6-character EFIN + 4-digit year + 3-digit Julian date + / - digit unique sequence number.
 - Government Code = IDST
 - SubmissionType
 - For Corporate and S corporate = Form41, Form41S
 - For Partnership = Form65
 - For Fiduciary = Form66
 - For Individual = Form40, Form43
 - SubmissionCategory
 - For Corporate and S corporate = CORP
 - For Partnership = PART
 - For Fiduciary = ESTRST
 - For Individual = IND
- The message must contain a header, a body, and an attachment. See Modernized E-File Logical ICD Model for message layout and message technical specifications.
- EROs and transmitters must be registered with the IRS to submit fed/state or state-only returns.
