PURPOSE OF FORM—The form is used by a corporation or pass-through entity required by KRS 141.044 to file a declaration of estimated tax to determine:

- Whether they are subject to the penalty for underpayment of estimated tax and if so,
- To compute the amount of underpayment and addition to tax penalty per KRS 141.044.

WHO MUST PAY THE UNDERPAYMENT PENALTY —Generally, a corporation or pass-through entity is subject to the penalty if it did not timely pay at least the smaller of:

1. The tax shown on its 2023 return, or
2. The tax shown on its 2022 return (if the filed 2022 return shows an LLET amount greater than the \$175 minimum OR the income tax amount is greater than \$0 AND the return was for a full 12 months). However, a large corporation can base only its first required installment on the prior year's tax.

In these instructions, “return” generally refers to the corporation's or pass-through entity's original return. However, an amended return is considered the original return if the amended return is filed by the due date (including extensions) of the original return. Also, for purposes of determining a required installment, if an amended return is filed for the prior tax year, then “prior tax year” includes the amended return, but only if the amended return is filed before the applicable installment due date.

The penalty is figured separately for each installment due date. Therefore, the corporation or pass-through entity may owe a penalty for an earlier due date even if it paid enough tax later to make up the underpayment. This is true even if the corporation or pass-through entity is due a refund when its return is filed. However, a corporation may be able to reduce or eliminate the penalty by using the annualized income installment method or the adjusted seasonal installment method. See the instructions for Part I for details.

Exception to the Penalty—A corporation or limited liability pass-through entity will not have to pay a penalty if the tax shown on the entity's 2023 return (Form 2220-K, Part II, Column C, Line 3 amount or if applicable, Worksheet on Page 6, Line 12, sum of all columns) is less than \$5,000 or the tax period is less than 4 months.

PART I—REASONS FOR FILING (ONLY CORPORATE FORM 720 OR 720U FILERS COMPLETE THIS PART)

Note: Even if the corporation does not owe a penalty, complete and attach this form to the corporation's tax return if:

1. the sum of Part II, Column A and Column B, Line 3 is \$5,000 or greater for a large corporation with Part I, Line 2, boxes (a) and/or (b) not checked; or
2. the sum of all columns on Line 12 of the Worksheet on page 6 is \$5,000 or greater; and
3. any of the following apply:
 - The adjusted seasonal installment method is used.
 - The annualized income installment method is used.
 - The corporation is a large corporation per IRC § 6655 figuring its first required installment based on the prior year's tax.

Lines 1 and 2. Adjusted seasonal installment method and/or annualized income installment method. If the corporation's income varied during the year because, for example, it operated its business on a seasonal basis, it may be able to lower or eliminate the amount of one or more required installments by using the adjusted seasonal installment method and/or the annualized income installment method. If the corporation uses the annualized income installment method and/or the adjusted seasonal installment method, or is a “large corporation” per IRC § 6655, see Federal Instructions for Form 2220 for guidance. An entity may calculate income tax installments based on the adjusted seasonal installment method and/or annualized income installment method by converting Federal Form 2220, Schedule A, to a Kentucky form by entering Kentucky at the top center of the schedule above “Adjusted Seasonal Installment Method and Annualized Income Installment Method.”
