MAJOR RECYCLING PROJECT

PART IV—Requirements Questionnaire	Yes	No
1 Was the investment in recycling or composting equipment more than \$10,000,000 and used exclusively in Kentucky?	1	
2 Were there at least 400 full-time employees with an average hourly wage of more than 300 percent of the federal minimum wage?	2	
(a) Average minimum wage \$ _____		
(b) Number of employees earning this wage		
3 Did plant and equipment have a total cost of more than \$500,000,000?	3	
(a) Total cost \$ _____		

If "yes" to all three requirements, you are entitled to the Major Recycling Credit. If "no" to any of the three questions, you are not entitled to the Major Recycling Credit.

PART V—Credit Calculation	LLET		Income Tax	
1 Enter the LLET liability from Form 720, 720U, PTE, or 725 (see instructions)	1	00		
2 Enter the income tax liability from Form 720, 720U, 740, 740-NP, or 741 (see instructions)	2			00
3 Limitation (line 1 and line 2 multiplied by 75% (.75))	3	00		00
4 LLET Credit (see instructions)	4	00		
5 Corporation Income Tax Credit (see instructions).....	5			00
6 Individual Income Tax Credit—Enter on Form 740, 740-NP, or 741	6			00

The Recycling and/or Composting Equipment or Major Recycling Project Credit is applied against the individual income tax imposed by KRS 141.020, the corporation income tax imposed by KRS 141.040, and the limited liability entity tax (LLET) imposed by KRS 141.0401. The amount of credit imposed against the corporation income tax and LLET can be different.

Tax Preparer's Note: Per KRS 141.390(2)(a), "Any credit allowed against the income tax imposed pursuant to this chapter shall also be applied against the limited liability entity tax imposed by KRS 141.0401." Therefore, 100 percent of the amount of credit approved, listed in Part II, Line 2, is available against both the income tax liability and the LLET liability (subject to the listed limitations). **The amount of credit claimed and the resulting balance of credit available must be calculated separately for income tax and LLET. If the balance available for income tax or LLET reaches zero, no further credit is allowed against that tax liability.** For example, any balance available for income tax cannot be used as a credit against the LLET nor can any balance available for the LLET be used as a credit against the income tax liability.

Purpose of Schedule—This schedule is used for both the recycling credit and a Major Recycling Project. It is used to request approval for the amount of Kentucky income tax credit and LLET credit that is allowable for the purchase and installation of recycling or composting equipment. It is also used by individual, fiduciary, or corporate taxpayers to substantiate and maintain a record of the amount of credit claimed on their tax return.

Who is Entitled to the Credit—Any taxpayer who purchases and places in service recycling or composting equipment to be used exclusively in Kentucky is entitled to the tax credit. If the purchaser is a pass-through entity, the partners are entitled to their pro rata or distributive share of any approved credit.

For a Major Recycling Project, the taxpayer must meet the following requirements: (1) invest more than \$10 million in recycling or composting equipment to be used **exclusively** in this state; (2) have **at least** 400 full time employees with an average hourly wage of more than 300 percent of the federal minimum wage; and (3) have plant and equipment with a total cost of more than \$500 million.

The Amount of the Credit and When Permitted—For recycling or composting equipment other than Major Recycling Projects, the total allowable tax credit is equal to 50% of the combined costs of qualifying equipment and installation, if any. The tax credit claimed in the tax year during which the recycling equipment is purchased or placed in service must not exceed 10% of the total tax credit allowable and must not exceed 25% of each tax liability which would be otherwise due. For all other years, the credit is limited to 25% of the tax liability. For LLET purposes, the credit is subject to the limitations applied against the LLET liability. Therefore, separate credit balances must be maintained. The unused portion of the credit may be carried forward to succeeding tax years.

For a Major Recycling Project, tax credits approved for taxable years beginning after December 31, 2019, the total allowable credit is equal to 25% of the installed cost of the recycling or composting equipment. In each taxable year, the amount of credit claimed for all Major Recycling Projects is limited to 75% of the total of each tax liability which would be otherwise due for that taxable year. For LLET purposes, the credit is subject to the limitations applied against the LLET liability. Therefore, separate credit balances must be maintained. The credit is limited to a period of 30 years commencing with the approval of the recycling credit application.

For a Major Recycling Project, tax credits approved for taxable years beginning before January 1, 2020, the total allowable credit is equal to 50% of the installed cost of the recycling or composting equipment. In each taxable year, the amount of credit claimed for all Major Recycling Projects is limited to 50% of the excess of the total of each tax liability over the baseline tax liability of the taxpayer not to exceed \$2.5 million. The baseline tax liability is the tax liability of the taxpayer for the most recent tax year ending prior to January 1, 2005. For LLET purposes, the credit is subject to the limitations applied against the LLET liability. Therefore, separate credit balances must be maintained. The credit is limited to a period of 10 years commencing with the approval of the recycling credit application.

Equipment that requires installation must be completely installed and placed in service during the first taxable year for which the tax credit is claimed.

Pass-through Entities—Distribute any credit approved for tax years beginning on or after January 1, 2007, to the partners, members, or shareholders on a pro rata or distributive share basis and record on Schedule K-1.

Types of Equipment Qualifying as Eligible Purchases—KRS 141.390 provides the following pertinent definitions:

- (a) "Postconsumer waste" means any product generated by a business or consumer which has served its intended end use, and which has been separated from solid waste for the purposes of collection, recycling, composting, and disposition and which does not include secondary waste material or demolition waste;
- (b) "Recycling equipment" means any machinery or apparatus used exclusively to process postconsumer waste material and manufacturing machinery used exclusively to produce finished products composed of substantial postconsumer waste materials; and
- (c) "Composting equipment" means equipment used in a process by which biological decomposition of organic solid waste is carried out under controlled aerobic conditions, and which stabilizes the organic fraction into a material which can easily and safely be stored, handled, and used in an environmentally acceptable manner.

The following items **may** qualify as composting and recycling equipment if the conditions below are met:

Balers	Lift-gate
Bob Cat	Magnetic Separators
Briquetters	Material Recovery Facility Equipment
Compactors	Pallet Jacks
Containers	Perforators
Conveyors	Pumps with Oil
Conveyor Systems	Scales
Crane with grappling hook	Screeners
Crushers	Shears
Densifiers	Shredders
End Loaders	Tractor
Exhaust Fans	Trailer
Fluffers	Trucks and Roll-offs
Fork Lifts	Two-wheel Carts
Granulators	Vacuum Systems

The conditions are as follows:

- (1) Recycling or composting equipment must be used exclusively within this state for recycling or composting postconsumer waste materials.
- (2) Recycling equipment or composting equipment is limited to the purchase and installation cost of equipment and does not include repairs, including major repairs, which are capitalized and depreciated.
- (3) Recycling equipment or composting equipment does not include an equipment lease required to be capitalized and depreciated by the lessee for federal income tax purposes.
- (4) Manufacturing equipment used exclusively to produce finished products composed of "substantial" postconsumer waste means the finished product must contain postconsumer waste of at least fifty percent (50%) or more.

For example, a can crusher is recycling equipment, but home trash containers or trash bin collectors are not. Similar items used for collecting and/or separating postconsumer waste are not recycling equipment.

A self-contained "backyard composter" is composting equipment. Lawn tractors, mowers, and mulching or bagging attachments and other similar equipment used to gather organic waste for composting are not composting equipment.

When and Where to File Application—This application must be filed with the Department of Revenue, Division of Corporation Tax, Station 52, 501 High Street, Frankfort, Kentucky 40601, on or before the first day of the seventh month following the close of the taxable year in which the recycling or composting equipment was purchased or placed in service. For taxable years beginning on or after January 1, 2020 but before January 1, 2024, an application for tax credit for a Major Recycling Project may also be made on or before the first day of the seventh month following either the close of the taxable year in which the recycling or composting equipment is purchased or placed in service or the close of the taxable year immediately following the taxable year in which the recycling or composting equipment is purchased or placed in service. Applications bearing a postmark after the above date will not be approved. Prior approval must be obtained before claiming the credit. **Only one application must be filed for all purchases qualifying during the taxable period for which the application is being filed.** The original copy of the approved application will be returned to the purchaser.

Signature—The application must be signed by the applicant or other authorized person. Unsigned applications will be returned.

SPECIFIC INSTRUCTIONS

Check Box—If a Major Recycling Project, check the box and complete Part I and page 2.

Pass-through Entities—The total approved recycling and/or composting equipment or major recycling project credit must be reported on Form PTE, Schedule K.

PART I—Composting and/or Recycling Equipment

Complete Columns A through F and the description portion for each type of equipment listed in Column A. If more than two types of equipment were purchased or placed in service during the taxable year, use Schedule RC-Part I Continuation on page 3.

Column A—Enter the specific name of the machinery, equipment, or apparatus. For each item listed, give a brief and concise description of the means by which it is used exclusively in the composting or recycling process.

Column B—Enter the name of the city, or if not a city, the county, in Kentucky where the qualifying equipment or machinery is located.

Column D—Enter the date placed in service, if applicable. If installation is required, enter the date the installation is completed and the equipment is ready for use.

Column E—Enter the purchase price or contract price of the qualifying equipment or machinery purchased. Round the amount(s) entered to the nearest whole dollar.

Column F—Enter the cost of installing the equipment or machinery to make it ready for use. Installation cost includes shipping charges incurred and paid by the purchaser. Round the amount(s) entered to the nearest whole dollar. Generally, the total amount of Columns E and F should equal the cost basis allowable for Kentucky depreciation purposes. **Invoices, installation contracts, and any other documentation necessary to verify cost of equipment and installation must be submitted to the Department of Revenue at the time the application is submitted.**

Column G—Do not complete Column G. This column is to be completed by the Department of Revenue to determine the total expense qualifying for the tax credit.

Identify the Equipment and Use—For the item of equipment listed, attach copies of vendor invoices or other documentation showing the purchase price and installation cost of the equipment. Also, describe how the equipment will be used for recycling or composting postconsumer waste materials.

Vendor invoices and other documentation must be reconciled to the cost of each item of equipment and the installation cost of each item of equipment included on Schedule RC. If the department is unable to reconcile the vendor invoices and other documentation to each item of equipment or the installation cost of each item of equipment included on Schedule RC, the application will not be approved until all information is received. To assist in the reconciliation, a spreadsheet showing the cost for each item of equipment should be attached to Schedule RC.

PART II—Credit Approved

Do not complete this part. It will be used by the Department of Revenue to show the amount of tax credit approved.

PART III—Amount of Credit Claimed

Entities subject to the LLET record the amount of approved credit claimed against the LLET in the LLET column for each taxable year. Individuals or entities other than pass-through entities record the amount of approved credit claimed against the income tax in the Income Tax column for each taxable year. Enter the current year credit claimed against the LLET and/or income tax on the appropriate line of the Kentucky tax return or Schedule TCS. (Do not record the credit for a Major Recycling Project in Part III. This amount will be recorded in Part V.)

Attach a copy of the approved application, including the entries made to date in this part, to the Kentucky tax return for each year for which any approved credit reflected by this application is claimed.

Recording the Tax Credit—Enter in the applicable column(s) on Schedule TCS, Part II, the recycling/composting and major recycling project credits being claimed against the LLET and/

or income tax on Form 720 or 720U. Enter on Schedule TCS, Part II, Column E, the recycling/composting and major recycling project credits being claimed against the LLET on Form PTE. Credits cannot exceed the limitations set forth in KRS 141.390 or reduce the LLET tax liability below the \$175 minimum.

For income tax purposes, pass-through entities must enter the credit approved by the Department of Revenue on Schedule K.

MAJOR RECYCLING PROJECT

PART IV—Requirements Questionnaire

Answer all questions. If yes to all three questions, continue to Part V.

PART V—Credit Calculation

Complete this part once you have received the approved application from the Department of Revenue. Each partner, member, or shareholder will complete this part based upon their specific tax information. Their share of the approved credit will be reported on Kentucky Schedule K-1.

The credit for a Major Recycling Project may be claimed against the LLET (corporations and limited liability pass-through entities) and income tax (entities subject to the tax imposed under KRS 141.020 or 141.040). The amount of credit claimed for each tax may be different, and separate balances must be maintained.

Line 3—Calculate the limitation, Line 1 and Line 2 multiplied by 75%.

Note: For tax credits approved for taxable years beginning before January 1, 2020, the total allowable credit is equal to 50% of the installed cost of the recycling or composting equipment. The amount of credit claimed for all Major Recycling Projects is limited to 50% of the excess of the total of each tax liability over the baseline tax liability of the taxpayer not to exceed \$2.5 million.

For taxable years beginning after December 31, 2019, the amount of credit claimed in a taxable year subsequent to the taxable year during which the recycling equipment is purchased shall not exceed seventy-five percent (75%) of the total of each tax liability, which would be otherwise due for that taxable year. KRS 141.390(2)(b)5

Line 4—Once the amount of credit is determined, enter here and in Part VI, Column C, LLET. Next, combine the LLET credit claimed here with the LLET credit claimed in Part III and enter the total on Schedule TCS, Part II, Column E. The credit claimed cannot reduce the LLET below the \$175 minimum.

Line 5—Once the amount of credit is determined, enter here and in Part VI, Column C, Income. Next, combine the income tax credit claimed here with the income tax credit claimed in Part III and enter the total on Schedule TCS, Part II, Column F.

PART VI—Amount of Credit Claimed

Individuals or entities other than general partnerships use this part to record the amount of the approved major recycling project credit and the amount of credit claimed for each taxable year. If no credit is taken, enter zero (-0-). The credit is limited to a period of 30 years for tax years beginning on or after January 1, 2020 (10 years for tax years beginning before January 1, 2020) commencing with the approval of the recycling credit application. Attach a copy of the approved application, including the entries made to date, to the Kentucky tax return for each year for which any approved credit reflected by this application is claimed.

Column B—In the year the credit is approved, enter in both the LLET column and Income column the major recycling project credit approved by the Department of Revenue. The approved credit is the same for LLET and income tax purposes. For subsequent years, the balance of the LLET credit and Income credit will be the amount of Column B less Column C for the LLET column and Income column, respectively.

Column C—For each year the credit is claimed against LLET, enter in the LLET column the amount of the credit from Part V, Line 4. For each year the credit is claimed against income tax, enter in the Income column the amount of the credit from Part V, Line 5 or 6.
