Data Specifications:

The major corporate excise forms, Form 355 and Form 355S use many of the same schedules. In order to limit the size of this .pdf, each schedule is reproduced within these guidelines only once. It is important to note, however, that most of these schedules must be included with a return in order for the return to be considered complete. Detailed instructions for Massachusetts corporate excise forms can be obtained at DOR's Web site, mass.gov/dor.

Section Two contains specifications for the following:

Form 355
Form 355-S

Schedule A
Schedule B/C
Schedule D/E-1
Schedule E

Location is designated as x (column) range, y(row) coordinates from the grids - In format as "Y-X, L", where L = length

Field Number with an asterisk (*) indicate changes from last year. These include New Line Items, Size Changes, & Location Changes; but not deleted items. Refer to Part 1, Data Specification area for deleted line items.

If there are differences between the stated field locations in this document and what is found on the grids, the grids take precedence.
