**GENERAL INSTRUCTIONS**

**FILING FORM 500**

Form 500 must be filed electronically if the corporation plans to claim a business income tax credit from Form 500CR or the Maryland Historic Revitalization Tax Credit from Form 502S.

**PURPOSE OF FORM 500** Form 500 is used by a corporation and certain other organizations to file or to amend an income tax return for a specific tax year or period.

**NOTE:** S corporations must use Form 510 — Maryland Pass-Through Entity Income Tax Return, or Form 511 - Pass-Through Entity Election Income Tax Return.

**1 WHO MUST FILE?**

**TAXPAYERS REQUIRED TO FILE** Every Maryland corporation must file an income tax return on Form 500, even if it has no taxable income or if the corporation is inactive. Every other corporation that is subject to Maryland income tax law and has income or losses attributable to sources within Maryland also must file Form 500.

Corporations operating in Maryland and in one or more other states are subject to Maryland income tax if their Maryland activity exceeds the provisions for federal protection from state taxation. U.S.C.A. Title 15, Section 381 of the Interstate Commerce Tax Act (P.L. 86-272) prescribes the extent of business activity required before states may impose income taxes.

A multistate corporation that operates in Maryland but is not subject to the Maryland income tax law is not required to file, although a return reflecting an apportionment factor of zero may be filed for record purposes. Letters in lieu of filing will not be accepted.

All financial institutions are subject to corporation income tax and have special apportionment rules. See Code of Maryland Regulations (COMAR) Chapter 03.04.08.

**ORGANIZATIONS EXEMPT FROM FILING** The following organizations are not subject to the Maryland corporation income tax and are exempt from filing an income tax return on Form 500, except as specified:

- **Pass-through entities** defined as partnerships in IRC Section 761, S corporations in IRC Sections 1361 and 1362, Limited Liability Companies (LLC) in Maryland Corporations and Associations Article Section 4A-101 and business trusts in Maryland Corporation and Associations Article Section 12-101.

LLCs and Business Trusts are treated as partnerships for Maryland income tax purposes, unless they are treated as corporations for federal income tax purposes.

Pass-through entities must file an income tax return on Form 510 or Form 511. Additionally, each member must file an income tax return.

An S corporation that is subject to federal income tax at the corporate level, also is subject to Maryland corporation income tax and Form 500 must be filed.

Maryland will follow the IRS rules for a single member LLC that is disregarded as a separate entity ("check-the-box") and certain partnerships that do not actively conduct a business and have elected not to be treated as a partnership.

For additional information regarding the taxation and filing requirements of pass-through entities, see the instructions provided with Form 510 and Form 511.

- **Nonprofit organizations** that are exempt from taxation under IRC Section 501, except those with taxable income for federal purposes, such as unrelated business taxable income or exempt function income under IRC Section 527.

Under Section 501, a variety of organizations, generally nonprofit groups organized for charitable or mutual benefit purposes, are exempt from income taxation. However, it may be subject to income tax if it has income from the operation of a business not related to the purpose for which they received their exemption.

The same tax treatment afforded for federal income tax purposes is afforded for Maryland income tax purposes. Income that is taxable for federal purposes also is taxable for Maryland purposes. Exempt corporations with federal taxable income must file Form 500 to report the income and pay the tax.

Whether or not required to file Form 500, nonprofit organizations operating in Maryland that are subject to federal exempt-status notification requirements must register with the Maryland Revenue Administration Division. To register, an authorized official must submit a letter of request accompanied by a copy of the Internal Revenue Service (IRS) determination of tax-exempt status.

Other agencies such as the State Executive Department - Secretary of State, State Department of Assessments and Taxation and Attorney General's Office each has its own specific requirements for nonprofit organizations.

- **Investment conduits** such as a Regulated Investment Company (RIC), and a Real Estate Mortgage Investment Conduit (REMIC), except those with taxable income for federal purposes. Investment conduits with such taxable income must file Form 500 reporting the taxable income. Real Estate Investment Trust should see Special Requirements For Certain Organizations.
  - **Individual retirement account (IRA)** trusts that are exempt from taxation under IRC Section 408 (e)(1), except those with taxable income for federal purposes. IRA trusts with such taxable income must file Form 504 reporting the taxable income.
  - **Insurance companies** within the meaning of the Insurance Article, Annotated Code of Maryland, Managed Care Organizations and Health Maintenance Organizations are subject to the insurance company premium tax. Insurance companies must contact the Maryland Insurance Administration regarding filing requirements and taxation.
  - **Common trust funds** as defined in the Maryland Financial Institutions Article Section 3-501(b).
  - **Fiduciary** taxpayers must file an income tax return on Form 504. Fiduciaries who are an Electing Small Business Trust (ESBT) are taxable by Maryland. See Form 504 Instructions for more information.
- SPECIAL REQUIREMENTS FOR CERTAIN ORGANIZATIONS**
- **Affiliated corporations** that file consolidated federal returns must file separate Maryland returns for each member corporation. Each member corporation must file and report the taxable income or loss on a separate basis, without regard to the consolidation for federal income tax purposes. Consolidation adjustments reported for federal purposes are not allowed for Maryland purposes.
  - **Qualified Sub-S Subsidiaries** are treated as divisions by the IRC and are not considered as separate entities for Maryland purposes. These divisions will be included on the parent

company's annual Maryland return.

- **A Real Estate Investment Trust (REIT)** is subject to the Maryland income tax when the REIT has taxable income at the federal level, as computed on Federal Form 1120-REIT. A Captive REIT may also have a Maryland income tax liability even if that entity does not have a federal income tax liability on its federal return.

**A Captive REIT** is a corporation, trust, or association that:

- Is considered a REIT for the taxable year under IRC Section 856;
- Is not regularly traded on an established securities market; and
- More than 50% of the voting power or value of the beneficial interests or shares of which, at any time during the last half of the taxable year, are owned or controlled (directly or indirectly) by a single entity that is a C corporation.

**A Captive REIT does not include:**

- A real estate investment trust that is intended to become regularly traded on an established securities market; or
- A corporation, trust, or association of which more than 50% of the voting power or value of the beneficial interests are owned directly or indirectly by:
  - Another non-captive REIT;
  - A nonprofit entity;
  - A listed Australian property trust, or an entity organized as a trust in which a listed Australian property trust owns or controls, directly or indirectly, 75% or more of the voting power or value of the beneficial interests or share of the trust; or
  - A qualified foreign entity. A qualified foreign entity is a corporation, trust, association, or partnership that is organized under the laws of a foreign government with which the United States government has a treaty, and:
- At least 75% of the total assets of the entity at the close of the entity's taxable year are represented by real estate assets, cash and cash equivalents;
- Is not subject to tax on amounts distributed to the entities beneficial owners or is exempt from entity-level taxation;
- Distributes at least 85% of the taxable income of the entity annually; and
- Of which not more than 10% of the voting power of the entity is owned or controlled directly or indirectly by a single entity or individual or the shares are regularly traded on an established securities market.

**A Captive REIT** is required to report a Maryland addition modification for the amount of its federal dividends paid deduction.

**Manufacturing Corporations** are subject to a special single factor formula of receipts. The rules for calculating the single factor can be found in Code of Maryland Regulations (COMAR) 03.04.03.10.

## **2 WHEN AND WHERE TO FILE**

File the original Form 500 by the 15th day of the 4th month following the close of the tax year or period, or by the original due date required for filing the federal return.

Generally, a claim for a refund or overpayment credit must be

filed within three years from the date the original return was filed or within two years from the date the tax was paid, whichever is later. An original return filed before the due date is considered to have been filed on the date it was due. The following exceptions apply:

- A claim for refund filed within 3 years after the date of filing the original return is limited to the amount paid within the 3 years plus any extension of time for filing the return, immediately preceding the filing of the claim.
- A claim for refund filed after 3 years, but within 2 years from the date the tax was paid is limited to the amount paid within the 2 years immediately before filing the claim.
- A claim for refund based on a federal NOL carryback must be filed within 3 years after the due date (including extensions) of the return for the tax year of the NOL.
- If the Internal Revenue Service (IRS) issues a final determination of adjustments that would result in an increase to Maryland taxable income, file the amended return within 90 days after the final determination.
- If the IRS issues a final report of adjustments that would result in a decrease to Maryland taxable income, file the amended return within 1 year after the final adjustment report or the final court decision, if appealed.
- If the claim for refund or credit for overpayment resulted from a final determination made by an administrative board or an appeal of a decision of an administrative board, that is more than 3 years from the date of filing the return or more than 2 years from the time the tax was paid, the claim for refund must be filed within 1 year of the date of the final decision of the administrative board or final decision of the highest court to which an appeal of the administrative board is taken.

**Note:** Changes made as part of an amended return are subject to audit for up to three years from the date the amended return is filed. For more information regarding refund limitations, see Administrative Release 20. The returns must be filed with the

**Comptroller of Maryland  
Revenue Administration Division  
110 Carroll Street  
Annapolis, MD 21411-0001**

Corporations and organizations that are afforded a later due date for federal returns under the Internal Revenue Code (IRC) are afforded the same due date for Maryland income tax returns.

## **3 SIGNATURES REQUIRED**

Form 500 must be signed by a duly authorized corporate officer. Preparers, other than corporate employees, also must print name and sign the return.

If a return is filed by a fiduciary, the fiduciary must print name and sign the return and attach verification of the authority to do so. See Instruction 9 - Signatures and Verification

## **4 GENERAL INFORMATION FOR FORM 500**

**Accounting Periods** The tax year or period used for the federal return must be used for the Maryland return. Accordingly, calendar tax years, fiscal tax years, 52-53 week tax years, and short tax periods may be necessary for Maryland filing purposes.

A Maryland return must be filed for each reporting period for which a federal return is filed or required. The form used for filing

must reflect the preprinted tax year in which the corporation's tax year begins.

In a 52-53 week tax year, Maryland follows federal treatment as to effective dates or the applicability of any provision expressed in terms of tax years beginning, including or ending with reference to a specified date.

**Use of Federal Figures** In preparing Form 500, all items reported for federal purposes must be reported on the Maryland return in the same manner. The character of an item cannot be changed from that required or elected for federal purposes.

**Copy of Federal Return Required** A copy of the actual federal income tax return through Schedule M2 as filed with the IRS for the corresponding tax period must be attached to Form 500. The Maryland filing will not be complete unless the required federal copy is attached.

Corporations included in a consolidated filing for federal income tax purposes must file separate returns for Maryland purposes and attach a copy of the actual consolidated federal return through Schedule M2 to each Maryland filing. Each Maryland filing also must include a copy of the columnar schedules of income and expense and of balance sheet items (which are required for the federal filing), reconciling the separate items of each member corporation to the consolidated totals.

**Taxable Income** The starting point for Form 500 is taxable income as developed for the federal income tax return after special deductions for dividends. (See "Specific Instructions" for line 1a and 1b.) No modification of the federal net operating loss or special deductions is allowed under Maryland income tax law except in the case of a Foreign Dividend Subtraction Carryforward (FDSC), decoupling modifications, and Section 10-306.1 related party transactions.

The federal net operating loss deduction effectively is allowed for the Maryland filing by using federal taxable income. The federal provisions for carryback and carryforward also apply for purposes of the Maryland return **unless** you are following certain provisions of the Job Creation, Worker Assistance Act of 2002, the American Recovery and Reinvestment Act of 2009. If an election to forgo a carryback is made, a copy of the federal election must have been included with the Maryland return for the loss year.

For the tax year in which a net operating loss occurs, that current operating loss is used to offset Maryland modifications. If the total of addition modifications exceeds the total subtraction modifications in the tax year of the net operating loss, a modification to recapture the excess of additions over subtractions is required when claiming the corresponding net operating loss deduction. For more information, see Section 10-205 of the Maryland Tax-General Article.

**NET OPERATING LOSS DEDUCTIONS.** The NOL for Maryland purposes is the **federal net operating loss**. No modification of the federal NOL is allowed under Maryland income tax law except in the case of a foreign source dividend subtraction. For more information about foreign source dividend subtractions, refer to Administrative Release 18.

A corporation included in a consolidated federal filing must use its separate federal NOL. An NOL should be entered on line 5 on Form 500 but may not be used to reduce line 6 to less than zero.

**Note: For 2020, Maryland has decoupled certain provisions from the CARES Act. For more information, see Tax Alert 7-24 at [marylandtaxes.gov](http://marylandtaxes.gov).**

Generally, the carryback of an NOL does not change the previously reported addition or subtraction modifications in a

carryback year.

The federal provisions for carryback and carryforward apply for purposes of the Maryland return **unless** you are following certain provisions of the Internal Revenue Code (IRC) from which the State of Maryland has decoupled, including certain special depreciation allowances and 2-year carryback provisions (farming loss only). If an election to forgo a carryback is made, a copy of the federal election must have been included with the Maryland return for the loss year.

An addition modification may be required in a carryback or carryforward year if the total Maryland addition modifications exceed the total Maryland subtraction modifications **in the loss year (NAM or net operating loss modification recapture)**.

The required addition modification represents a recapture of the excess additions over subtractions and generally is equal to the lesser of the NOL deduction in the carryback year or the net addition modification in the loss year. For more information regarding net addition modification, refer to Administrative Release 18.

**NET CAPITAL LOSSES.** If a net capital loss carryback is used to reduce federal taxable income, an addition modification is required for the amount of the income reduction.

The federal **special deduction for dividends** is treated as a current year deduction. It is deducted from federal taxable income before application of the net operating loss deduction. The deduction reduces taxable income and may create a net operating loss.

If an **affiliated group of corporations** files a consolidated return for federal purposes, each member corporation must calculate any net operating loss and special deductions based on its separate federal taxable income and loss. The deductions must be calculated in strict accordance with federal income tax provisions, as if the member corporation is not involved in a consolidated filing and files a separate return with the IRS.

**Maryland modified income** is federal taxable income after statutory addition and subtraction adjustments and/or modifications. For a list of the statutory addition and subtraction adjustments and modifications, see Specific Instructions.

**Maryland apportioned income** is applicable only for multistate corporations and is developed by applying the apportionment factor to Maryland modified income. For an explanation of apportionment provisions, see Instructions for Schedule A - Computation of Apportionment Factor.

**Maryland taxable income** is federal taxable income after statutory adjustments, modifications, and applicable apportionment.

**Maryland Business Income Tax Credits** For information about credits against the tax, see Specific Instructions for lines 15c and 15d or the instructions provided for Form 500CR - Maryland Business Income Tax Credits. Form 500CR Instructions are available online at [marylandtaxes.gov](http://marylandtaxes.gov). You must file Form 500CR electronically to claim a business income tax credit.

**Tax, Interest and Penalty** The tax rate is 8.25%. The annual rate of interest charged for taxes owed to the State is 10.0075% from 01/01/24 through 12/31/24. The annual interest rate after 12/31/24 is 11.4825%. For more information, visit [marylandtaxes.gov](http://marylandtaxes.gov).

A penalty is applicable for late filing of tax returns and/or late payment of any taxes due. Additional penalties are applicable for the filing of false, fraudulent or frivolous returns and civil and/or criminal fines and imprisonment may apply.

In the case of delinquent taxes, the State will record a lien and judgment and proceed with legal action as necessary to effect collection of the balance due.

## 5 OTHER MATTERS

**Extension of Time to File** If unable to file Form 500 by the due date, a corporation must submit Form 500E - Maryland Application for Extension to File Corporation Income Tax Return. Maryland law provides for an extension of time to file, but in no case can an extension be granted for more than **seven** months beyond the original due date.

The request for extension of time to file will be granted for seven months, provided that:

- 1) The application is properly filed and submitted by the 15th day of the 4th month following the close of the tax year or period, or by the original due date required for filing of the federal return; and
- 2) Full payment of any balance due is submitted with the application.

The application extends only the time allowed to file the annual income tax return and not the time allowed to pay the tax.

For additional information regarding extensions of time to file, see the instructions provided with Form 500E.

**Estimated Income Tax** Every corporation that reasonably expects its Maryland taxable income to develop a tax in excess of \$1,000 for the tax year or period must make estimated income tax payments with Form 500D - Maryland Declaration of Estimated Corporation Income Tax. If the corporation is required to make multiple payments it will use a Form 500D for each of the additional payments. This form is available at [marylandtaxes.gov](http://marylandtaxes.gov).

Declaration of estimated income tax payments are due by the 15th day of the 4th, 6th, 9th and 12th months following the beginning of the tax year or period. The total estimated tax payments for the year must be at least 90% of the tax developed for the current tax year or 110% of the tax that was developed for the prior tax year. At least 25% of the total estimated tax must be remitted by each of the four installment due dates.

In the case of a short tax period, the total estimated tax required is the same as for a regular tax year: 90% of the tax developed for the current (short) tax year or 110% of the tax that was developed for the prior tax year. The minimum estimated tax for each of the installment due dates is the total estimated tax required divided by the number of installment due dates occurring during the short tax year.

For additional information regarding estimated income tax, see the instructions provided with Form 500D.

**Audits and Appeals** All items reported on Form 500 are subject to audit, verification and revision, including items reported for federal purposes. Returns and amendments are subject to audit and adjustment for a period of 3 years from the date the return was due (including extensions) or the date the return was filed, whichever is later.

In the event of revision and assessment or reduced refund, the Comptroller will notify the corporation. If in disagreement with the assessment or denial of the refund, the corporation may file with the Compliance Division a written request for revision of the assessment or reconsideration of the refund denial. The request, in either case, must be made by submitting an application for an informal hearing with the Compliance Division within 30 days of

the assessment or denial of the refund.

Failure to file a written request or attend the informal hearing will result in the assessment or denial of refund becoming final and non-appealable.

You may file an appeal with the Maryland Tax Court within 30 days of a final determination by the Compliance Division hearing officer.

**Amended Return Form 500X has been combined with Form 500.** To correct an error in previously filed returns, check the amended return box on page 1 and complete the entire return (where applicable) including the amended figures. Attach copies of the documents required and filed with the IRS. If the corrections affect only the Maryland return and not items of federal taxable income, include a thorough explanation of the changes.

Each affected member of a consolidated federal filing also must include a schedule reconciling the amendments of each member corporation to the consolidated totals.

Federal income tax law provides for certain capital loss carryback and carryforward. Any carryforward effectively is allowed when reporting federal taxable income on the Maryland return. Except as specifically decoupled from the CARES Act. For more information, see Tax Alert 7-24 at [marylandtaxes.gov](http://marylandtaxes.gov). Do not attach amended returns to an original corporation income tax filing.

Amended return(s) must be filed electronically if the change is related to a business income tax credit from Form 500CR.

**NOTE:** Changes made as part of an amended return are subject to audit for up to three years from the date that the amended return is filed.

**Federal Adjustments** If the items of federal taxable income reported for any tax year or period are adjusted by the IRS and will increase Maryland taxable income, an amended return together with a copy of the final IRS adjustment report must be submitted within 90 days.

Each affected member of a consolidated federal filing also must include a schedule reconciling the separate adjustments of each member corporation to the consolidated totals.

**Refund Claims** Generally, a claim for a refund (amended return) must be filed within 3 years from the date the original return was filed or within 2 years from the date the tax was paid, whichever is later. A return filed early is considered filed on the date it was due.

If the claim for refund resulted from an IRS adjustment or final decision of a federal court which is more than 3 years from the date of filing the return or more than 2 years from the time the tax was paid, a claim for refund must be filed within 1 year from the date of the adjustment or final decision.

A claim for refund based on a federal net operating loss carryback must be filed within 3 years after the due date of the return for the tax year of the net operating loss.

**Taxpayer Identification Required for Returns and Other Documents** All returns, correspondence, payments or other documents must indicate the corporation name, Federal Employer Identification Number (FEIN), type of tax and tax year(s) to which the document relates.

All corporations are required to secure a FEIN from the IRS. The FEIN is the number used by the IRS for processing purposes and also is the primary number used by the Maryland Revenue Administration Division.

The type of tax and tax year(s) are necessary to identify the subject of the document and the intention of payments. This information ensures that documents and payments are applied to the correct account.

**Use of Paid Preparers** The Corporation is responsible for the timely filing of returns, payment of tax, responding to requests and all other requirements, even if a paid preparer is used.

**Substitute Forms** You may file your Maryland income tax return on a computer-prepared or computer-generated substitute form provided the form is approved in advance by the Revenue Administration Division. The fact that a software package is available for retail purchase does not guarantee that it has been approved for use.

For additional information or to see a list of Approved Software Vendors for Maryland Substitute Tax Forms, visit [marylandtaxes.gov](http://marylandtaxes.gov).

**Employer Withholding of Income Tax** Employers that make payments to individuals of salaries, wages, or compensation for personal services must withhold income tax as prescribed in published tables and remit the withholding to the Maryland Revenue Administration Division with Form MW506 or MW506M - Employer's Return of Income Tax Withheld.

An annual reconciliation is required to be filed on Form MW508 - Annual Employer Withholding Reconciliation Return and submitted with the state copy of the wage and tax statements issued to the employees as required by law.

For additional information regarding employer withholding tax, contact the Taxpayer Services Division at 1-800-638-2937 or from Central Maryland at 410-260-7980.

**Privacy Notice** The Maryland Revenue Administration Division requests tax return information to administer the income tax laws of Maryland, including the determination and collection of the correct taxes and other amounts. Failure to provide all or part of the requested information may result in the disallowance of claimed amounts and an increased tax liability. In addition, the law makes provision for securing information from taxpayers that fail to supply required information, and a penalty may apply.

Taxpayers have a right to access their tax records maintained by the Revenue Administration Division, and may inspect, amend or otherwise correct them. To obtain a copy, submit a written request containing the corporation name, address and identification number and specify the information needed. The request must be signed by an authorized corporation officer.

As authorized by law, information furnished to the Revenue Administration Division may be given to the IRS, a proper official of any state that exchanges tax information with Maryland, and to an officer of this State having a right to the information in that officer's official capacity. Also, the information may be obtained in accordance with a proper judicial or legislative order.

## **6 TAX YEAR OR PERIOD**

ENTER THE BEGINNING AND ENDING DATES IN THE SPACE PROVIDED AT THE TOP OF FORM 500. The form used in filing must reflect the preprinted tax year in which the corporation's tax year begins.

The same tax year or period used for the federal return must be used for Form 500.

## **7 ASSEMBLING AND COMPLETING YOUR RETURN**

Complete the federal income tax return first and use it in preparation of the Maryland return. After completing the Maryland return, assemble your return in the following order: Form 500, any required Maryland forms and their related attachments, any Maryland Schedule K-1 (510/511) or other statements showing credits claimed on corporation return, and the federal income tax return through Schedule M2.

### **NAME, ADDRESS AND OTHER INFORMATION**

Type or print the correct name and address in the designated area. Enter the corporation name exactly as specified in the Articles of Incorporation, or as amended, and continue with any "Trading As" (T/A) name if applicable.

**1 GENERAL INFORMATION FOR MARYLAND FORM 500  
SCHEDULE A**

**Multistate corporations** are those that are operating in more than one state and beyond the protection of U.S.C.A. Title 15, Section 381 of the Interstate Commerce Tax Act (P.L. 86-272). Multistate corporations operating in Maryland as a unitary business must allocate income using an apportionment formula.

**Unistate corporations** are those that are operating in only one state, or are operating in more than one state but the extent of the activity in the other states is within the protection of P.L. 86-272. Unistate corporations subject to the Maryland income tax law may not apportion income.

**Allocation** means the assignment of income to a particular state. **Apportionment** means the allocation of income among states by the use of a formula containing apportionment factors.

All factors of the apportionment formula are developed as fractions, the numerator of which is the total of Maryland items and the denominator is the total of items everywhere during the tax year. Each factor is calculated to six decimal places and the number of factors used is averaged to arrive at the final apportionment factor. The items of both numerator and denominator should reconcile to the items as categorized and reported on the federal income tax return.

If a return is filed by a multistate corporation which reflects a loss and there is no income to be apportioned, an apportionment factor must be calculated for the filing to be complete.

**2 SINGLE SALES FACTOR APPORTIONMENT**

For tax years beginning after December 31, 2021, multi-state businesses using the apportionment method of allocation generally are required to use a single receipts factor. Rental/leasing companies, financial institutions, transportation companies, and worldwide headquartered companies must use a Special Apportionment Formula (see instruction 3 below), unless the Comptroller has accepted an Alternative Apportionment Formula (see instruction 4 below). Property and payroll factors must be developed if the taxpayer has income from the sale of intangibles or is subject to a special apportionment formula **or alternative apportionment formula. If the taxpayer does not have income from the sale of intangibles and is not subject to another apportionment formula, property and payroll factors are not required to be developed.**

Specific requirements regarding each factor are set forth below:

• **RECEIPTS FACTOR**

The receipts factor includes the amounts of income reported during the tax year as gross receipts or sales less returns and allowances, dividends, interest, gross rents, royalties, capital gains and other income on the federal return.

Gross receipts from sales of **tangible personal property** are included in the numerator if the property is delivered or shipped to a purchaser that takes possession in Maryland, regardless of f.o.b. point or other conditions of sale. Sales of tangible personal property to an out-of-state purchaser also are included in the numerator if the purchaser takes possession in Maryland. Sales of property in transit that are destined for Maryland are included in the numerator.

Gross receipts from **service-related activities** are included in the numerator if the receipts are derived from customers within this State. There are specific rules to determine "Customers Within this State." To review these rules, see Maryland Regulation 03.04.03.08D.

Gross income from **intangible items** such as dividends, interest, royalties and capital gains from the sale of intangible property are included in the numerator based upon the average of the property and payroll factors.

Gross receipts from the **rental, leasing or licensing of real or tangible personal property** are included in the numerator if the property is located in Maryland. If tangible personal property is located in this State for a portion of the tax year, only the income received for that portion is included in the numerator.

Capital gains from the **sale of real and tangible personal property** are included in the numerator if the property is located in Maryland. Ordinary net gain or loss derived from the sale of depreciable assets is excluded from the factor.

**Other income items** are included in accordance with the provisions previously stated depending on the nature and type of each item.

• **PROPERTY FACTOR**

The property factor includes owned as well as rented tangible personal property used in the trade or business during the tax year. Such properties are inventory, machinery and equipment, buildings and land, and other tangible assets. Property is included in the numerator if it has a situs within Maryland.

**Property owned** by the corporation is valued at its original cost at the average of the tax year beginning and ending amounts. If there are material changes during the tax year and the yearly average is not a fair representation, the average must be calculated on a monthly or daily basis.

**Property in transit** is considered to be at its destination for purposes of the factor. Property under construction during the tax year is excluded from the factor until actually placed in service.

**Property leased or rented** by the corporation is included in the factor at a capitalized value. To arrive at the capitalized value, expenses are associated with the privilege of occupying or using the property, including such items as fixed rent, percentage rent, real estate taxes, insurance and maintenance, are multiplied by eight. Expenses for gas, electricity, oil, water or other items normally consumed are excluded.

**Lease or rental expense below the market rate** must be adjusted to reflect a reasonable market rate and then capitalized. Sublease income cannot be used to arrive at the capitalized value of leased or rented property, but must be included in the receipts factor.

**Improvements to the leased or rented property** that revert to the owner at expiration of the lease or rental term are amortized and not capitalized. The actual cost of the improvements is divided by the number of years remaining for the lease or rental term and the result is included in the factor for each tax year.

**Property that has remained idle** and has not produced any revenue for a period of five or more years is not included in the factor.

• **PAYROLL FACTOR**

All compensation is to be included in the numerator, both when the individual's service is performed entirely within Maryland, and when the individual's service is performed both within and without Maryland but the service performed outside Maryland is incidental to the individual's service within.

Compensation also is included in the numerator if some part of the service is performed within Maryland and the base of operations or place from which the service is controlled is in Maryland. If the base of operations or place from which the service is controlled is not in any state where the service is performed but the individual's residence is in Maryland, the compensation is also included in the numerator.

An election to treat certain stock purchases under IRC Section 338(h)(10) is also recognized by the State of Maryland.

### **3 OTHER APPORTIONMENT FORMULAS**

Rental/leasing companies use an equally weighted two-factor formula of receipts and property, with receipts from intangible items excluded.

Financial institutions use a single receipts factor; financial institution receipts are defined in COMAR 03.04.08.03.

Transportation companies:

- A trucking company or motorfreight carrier uses an apportionment formula equal to miles traveled in the State over miles traveled everywhere.
- A railroad company uses an apportionment formula equal to miles traveled on tracks in-State over miles traveled on tracks everywhere.
- A shipping company uses an apportionment formula equal to the number of days spent in ports and on waterways in-State over number of days spent in ports and on waterways everywhere and worldwide headquartered companies required to use a Special Apportionment Formula should refer to Administrative Release 43: Corporate Apportionment of Income. **[marylandtaxes.gov/forms/Tax\\_Publications/Administrative\\_Releases/Income\\_and\\_Estate\\_Tax\\_Releases/ar\\_it43.pdf](https://marylandtaxes.gov/forms/Tax_Publications/Administrative_Releases/Income_and_Estate_Tax_Releases/ar_it43.pdf)**.
- An airline uses an apportionment formula of equally weighted property, payroll, and sales. COMAR 03.04.03.08(G)(3)-(6) prescribe how each factor is calculated.
- Transportation company can refer to Administrative Release 43 **[marylandtaxes.gov/forms/Tax\\_Publications/Administrative\\_Releases/Income\\_and\\_Estate\\_Tax\\_Releases/ar\\_it43.pdf](https://marylandtaxes.gov/forms/Tax_Publications/Administrative_Releases/Income_and_Estate_Tax_Releases/ar_it43.pdf)** and Administrative Release 22 (airlines) **[marylandtaxes.gov/forms/Tax\\_Publications/Administrative\\_Releases/Income\\_and\\_Estate\\_Tax\\_Releases/ar\\_it22.pdf](https://marylandtaxes.gov/forms/Tax_Publications/Administrative_Releases/Income_and_Estate_Tax_Releases/ar_it22.pdf)** for additional information.

### **4 SPECIAL RULES**

Alternative Apportionment: If the apportionment formula does not fairly represent the extent of the corporation's activity within Maryland, the Revenue Administration Division may alter the formula or components accordingly. The corporation may also request the Comptroller's approval to use an Alternative Apportionment Formula.

The corporation's share of receipts, property and payroll of a partnership or joint venture is included in the corporation's factors as if they were the direct receipts, property and payroll of the corporation. The partnership share is included only to the extent of the factors required for the corporation.

Income may be allocated by separate accounting when the activity of the corporation within Maryland is nonunitary. A corporation may not use the separate accounting method without prior approval of the Revenue Administration Division.

**9-8-8 Fee** A 9-8-8 fee is imposed on each telephone service or other communications service that connects an individual dialing the digits 9-8-8 to the 988 Suicide and Crisis Lifeline. The 9-8-8 Fee is 25 cents per month payable when the bill for switched local exchange access service, CMRS, or other 9-8-8-accessible service is due. The tax is set by the localities at rates varying from one-half of 1% to 10% of the admissions and amusement receipts. When the gross receipts are also subject to the sales and use tax, the combined tax rate may not exceed 11%.

A separate State admissions and amusement tax is imposed on the net proceeds from electronic bingo or electronic tip jars. When the net proceeds are also subject to a local tax, the combined tax rate may not exceed 35%.

The applicable tax rate depends on the person's global annual gross revenues and ranges from 2.5% to 10% of annual gross revenues derived from digital advertising services in Maryland. Annual returns are due by April 15 of the next calendar year.

**Tire Recycling Fee** This fee applies to tire wholesalers or a tire retailer who buys tires from out-of-state sources. Registration and payment of the fee is handled by the Revenue Administration Division.

**Utility Surcharges** These surcharges are collected by electric companies that deliver electricity in Maryland and by telephone companies doing business in Maryland. The

The utility surcharges are collected by the Revenue Administration Division.
