2019 MAINE CAPITAL INVESTMENT CREDIT WORKSHEET INSTRUCTIONS

This credit is available to businesses that invest in certain depreciable property in Maine in tax years beginning in 2019 and that claim special depreciation under IRC § 168(k), commonly known as bonus depreciation, on that property. Income tax filers (including owners of pass-through entities) eligible to claim the credit may elect to either claim the credit (along with the associated income addition modification) or to claim the regular bonus depreciation addition modification and the related depreciation recapture subtraction modifications in future years (see instructions for Form 1040ME, Schedule 1, lines 1d & 2h; Form 1041ME, Schedule 1, lines 1e & 2e; Form 1120ME, lines 2i & 4h). The election may be made with respect to each eligible asset placed in service in Maine. If the credit is claimed, the related income addition modification (Form 1040ME, Schedule 1, line 1e; Form 1041ME, Schedule 1, line 1f; Form 1120ME, line 4g) may not be recaptured in future years.

The credit is equal to a percentage of the net increase in the depreciation claimed under IRC § 168(k) for property placed in service in Maine during the taxable year and reported as an addition to income. For tax year 2019, the credit is equal to **7%** of the net increase in the depreciation claimed by taxpayers filing as individuals and **9%** for taxpayers filing as taxable corporations. The credit is limited to the tax liability of the taxpayer, but any unused portion may be carried forward for up to 20 years. The credit is subject to full recapture if the property is not used in Maine for the entire 12-month period following the date placed in service. Amounts added back to income may not be recaptured in future years. This credit may not be claimed by the following businesses:

- Public utilities (defined under 35-A M.R.S. § 102);
- Persons providing radio paging services (defined under 35-A M.R.S. § 102);
- Persons providing mobile telecommunications services (defined under 35-A M.R.S. § 102);
- Cable television companies (defined under 30-A M.R.S. § 2001);
- Persons providing satellite-based direct television broadcast services; and
- Persons providing multichannel, multipoint television distribution services.

Also, the credit may not be claimed with respect to property transferred out-of-state or otherwise removed from use in Maine during the taxable year. In addition, the credit may not be claimed by a nonresident owner of a pass-through entity who is participating in a composite return. For more information on composite filing, see Maine Revenue Services Rule 805 at www.maine.gov/revenue/rules/.

In the case of pass-through entities (such as partnerships, LLCs, S corporations, and trusts), the partners, members, shareholders, beneficiaries or other owners are allowed a credit on their ownership share of the bonus depreciation generated by the pass-through entity that is eligible for the credit.

RECAPTURE INSTRUCTIONS

The amount of credit claimed on your Maine income tax return related to property transferred out-of-state or otherwise removed from service within 12 months of being placed in service in Maine is subject to recapture. To recapture the credit, you must file an amended return for the tax year you claimed the credit. For example, if you claimed the credit on your 2016 Maine income tax return and the credit is subject to recapture, you must amend your 2016 Maine income tax return to recapture the credit.
