## Instructions for *Michigan Farming Loss Carryback Refund Request* (Form 5603)

## Purpose

Form 5603 is used to claim a refund from the carryback of a Group 2 TCJA net operating loss (NOL) attributable to a farming loss. This form is supported by Schedule MI-1045 for the loss year. If an election was made on Schedule MI-1045 to forgo the entire carryback period, then do not file this form. Once the election is made, it is irrevocable.

An amended MI-1040 may not be filed in lieu of Form 5603 to claim a carryback refund. For more information on NOLs, see *Michigan Net Operating Loss Schedule* (Schedule MI-1045) instructions.

## Group 1 NOLs

Group 1 NOLs are those created in 2017 and prior.

## Group 2 NOLs

**Group 2 CARES NOLs** are those created in 2018, 2019 and 2020.

**Group 2 TCJA NOLs** are those created in 2021 and future tax years. A Group 2 TCJA NOL carryback is limited to the portion of the NOL that is attributable to a farming loss from a farming business. Michigan follows IRC 172, therefore, any carryback of a Group 2 NOL is limited to the lesser of the Michigan NOL deduction or 80 percent of Michigan taxable income before exemptions and previously claimed NOL deductions. A Michigan excess business loss computed on Form MI-461 that may contain a farming loss cannot be carried back.

## Farming Loss Carryback

The federal 2017 TCJA limits the carryback of a Group 2 TCJA NOL to only the portion of the NOL that is attributable to a farming loss from a farming business. A carryback of a non-farming Group 2 TCJA NOL is not allowed. The term “farming business” is defined in IRC 263A. Farming loss, as defined in IRC 172, means the lesser of: the amount which would be the NOL for the

## Line-by-Line Instructions for Form 5603

**Line 1:** If there was a change in filing or m

the loss year and carryback year(s), the allowed NOL deduction may be affected. See IRS Publication 536 to determine how to compute your share of a Michigan NOL and/or how to recompute your Michigan taxable income, in accordance with your situation for purposes of this form. Complete Form 5603 according to the form instructions, except when instructed differently below.

If your situation requires you to recompute your Michigan NOL, enter any recomputed Group 2 TCJA NOL on line 2 and adjust line 3 as necessary. Include a separate computation showing how the Group 2 TCJA NOL was recomputed.

If your situation requires you to recompute your Michigan taxable income on this form, enter your share of AGI reported on the MI-1040 for the carryback year on

taxable year if only income and deductions attributable to a farming business is considered or the amount of the NOL for such taxable year. Generally, the farming NOL carryback is limited to the two taxable years preceding the year of the loss. The farming carryback is subject to the 80 percent limitation, which is computed without regard to exemptions or any previously claimed NOL deduction. Any unused NOL may be carried forward indefinitely until absorbed.

When carrying back a Michigan farming NOL to prior years, Schedule MI-1045 and supporting documentation must be filed within four years after the date set for filing the return for the year in which the NOL was incurred. For example, if the NOL is created in 2025, the 2025 return is due April 15, 2026. Form 5603 must be filed by April 15, 2030 to carry back the 2025 Michigan farming NOL to a year that is otherwise outside the general four-year statute of limitations period to claim a refund. If Form 5603 is filed after the four-year statutory period has expired, no refund is allowed for the carryback year. However, after absorbing the farming NOL in those carryback periods, a carryforward may still exist to offset income in subsequent years.

After the loss is carried back to the earliest year allowed, the carryover must be reduced by any Michigan sourced excess capital loss and other modifications required under IRC 172 or elections under IRC 965 claimed in the carryback year(s). For example, an NOL created in 2025 is carried back to 2023. The 2023 adjusted gross income (AGI) included excess capital loss. Therefore, the NOL created in 2025 that is carried back to 2023 must be reduced to the extent the capital loss reduced 2023 Michigan taxable income before exemptions. Any remainder may be carried forward. This adjustment occurs in Part 3 of Form 5603.

line 6. Enter your share of total additions included in Schedule 1 on line 7. Enter your share of total subtractions included in Schedule 1 on line 9. Enter your share of Michigan exemption allowance from the MI-1040 on line 15. Include a separate statement detailing which items of income or loss included in AGI are yours, include the type and location for each item listed.

#### Line 7: Enter Michigan Schedule 1 Additions from

year indicated on line 5.

**Line 9:** Enter Michigan Schedule 1 Subtractions from the

year indicated on line 5.

**Line 10:** If zero or less, enter zero and STOP. You cannot

apply an NOL carryback to a year when there is no income to be offset.

**Line 13, Column A:** Multiply line 12, column A by 80%. Enter the lesser of line 4 or 80% of line 12, column A.

**Line 13, Column B:** Multiply line 12, column B by 80%. Enter the lesser of line 34, column A or 80% of line 12, column B.

**Line 18:** Enter the total of nonrefundable credits received for Income Tax Imposed by government units outside Michigan and the Michigan Historic Preservation Tax Credit carryforward for the year listed on line 5, if applicable.

**Line 20:** Enter the total of Voluntary Contributions and Use Tax reported on the MI-1040 for the year listed on line 5, if applicable.

**Line 22:** Enter the total refundable credits received for the Homestead Property Tax, Farmland Preservation Tax and any other refundable credits for the year listed on line 5, if applicable.

**Line 24:** Enter the total tax paid with Form MI-1040 plus any additional tax paid after the original return was filed for the year listed on line 5. Do not include penalty or interest that was reported on the return or included with any payment(s).

### Part 3: Compute the NOI Carryover

**Lines 32 and 33:** Remove the excess capital loss from the amount of the NOL available to be carried forward to the next year.

Line 34, Column A: If the result is less than zero enter “0” or if carrying back to only one year, continue to Section B to compute the Group 2 TCJA NOL carryforward. If the result is greater than zero and the NOL must be applied to another carryback year, continue to Part 2, column B.

**Line 34, Column B:** Continue to Section B to compute the Group 2 TCJA NOL carryforward.

Keep all records that substantiate an NOL for 6 years after the NOL expired or was absorbed.
