

GOVERNOR GREG GIANFORTE
DIRECTOR BRENDAN BEATTY

To: MeF Vendors

Concerning: MTST_TY24_FID Updates

Reject Code – FormFID-A01075 has been updated.

The original reject code said:

If the "entity type" marked is a simple trust, complex trust, or QSST, the number of Schedule K-1s included must match the total number of resident and nonresident beneficiaries.

The new reject code says:

If the entity type marked is a simple trust or complex trust, the number of Schedule K-1s included must match the total number of beneficiaries.

The updated reject code has removed the QSST criteria, allowing for returns to be submitted with that entity type.

Thank you,

Information Governance Unit
