

## Steps to replace MLI PDF under the NEW workflow

1. Rename filename using citation format (**Analysts should be informed to follow this requirement to name future MLI PDF files**)  
-Example. **from** Bulgaria-India\_MLI Modifications\_MS(BWR).docx **to** mli\_modifications\_bulgaria-india\_ms\_(bwr).docx
2. Log in to BDMS (Prod): <https://bbe.bloomberg.com> and click on the "Search" Tab
3. Click on the hamburger sign to select "Acquisition", "ACQ-Create Workunits":

The screenshot shows the BDMS (Prod) dashboard interface. The top navigation bar includes the user name 'rwong297', 'My Tasks 1', and 'Notifications 7'. The main content area is titled 'Search Results (Right Click on grid to view more options)'. The search results are displayed in a table with the following columns: unitId, contentSetName, Status, taskId, taskName, note, assignedUsr, and ass. The table is currently empty. The left sidebar shows a navigation tree with 'Acquisition' expanded, and 'ACQ-Create Workunits' selected. The right sidebar contains a list of actions: Save Query, Share Query, Delete Query, Columns, Reset, Switch View, Add Filter, Clear Filters, and Execute.

BDMS (Prod) DB 55% full, 14821Gb free / Object Store: 514365 GB used

Execute

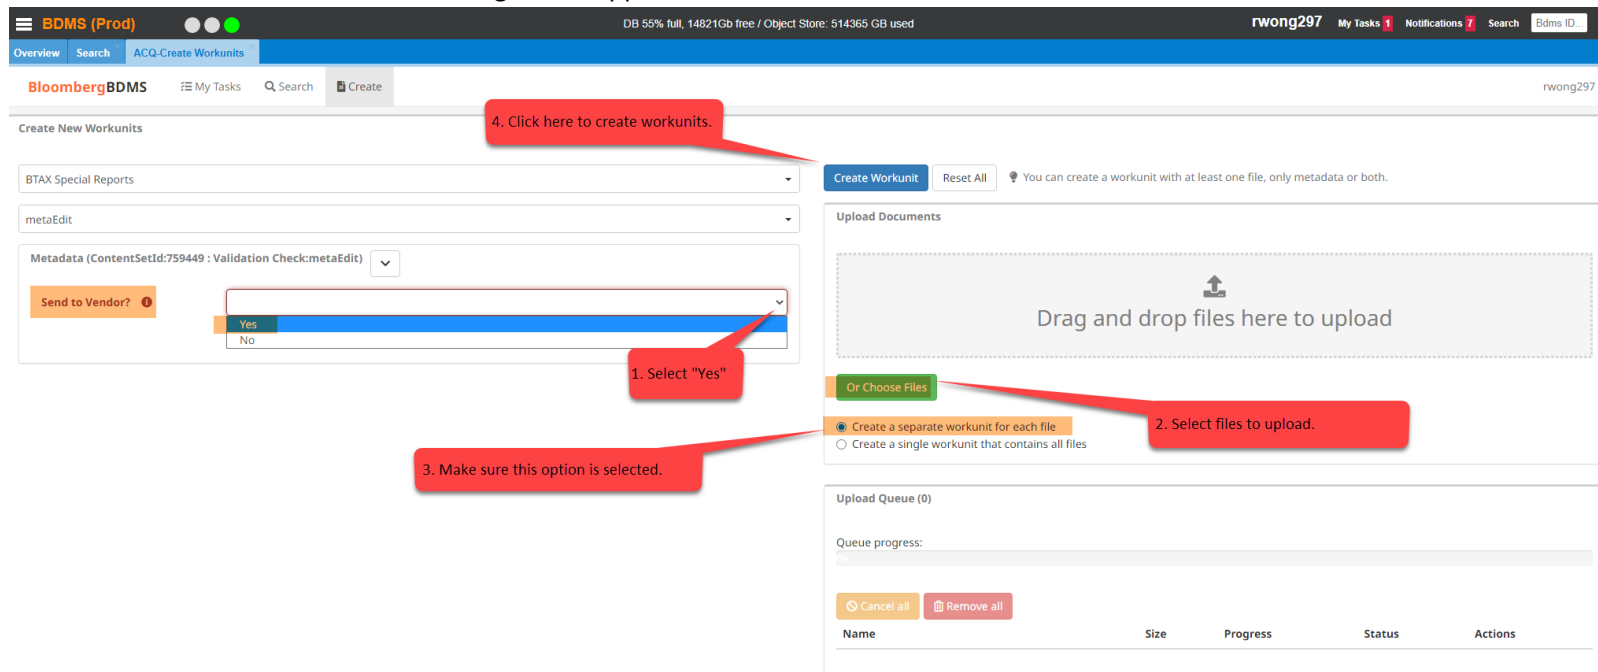

4. Under “Create New Workunits”

-type in “BTAX Special Reports” on “Select Content Set (Required)”

-select “metaEdit” on “Select Metadata Group” pull down menu:

5. When the “Create New Workunits” dialogue box appears:

6. BDMS receives Word files and generates work unitlds
7. BDMS starts vendor task
8. Infocon converts Word file to MLI box Word layout and save it in PDF format (Infocon will return this PDF to BDMS for publishing).

## Bulgaria-India

<p><b>Date this Convention is Modified by the MLI (Enters into Force):</b> January 1, 2023  <b>MLI instrument of ratification deposited (Bulgaria):</b> September 16, 2022  <b>MLI instrument of ratification deposited (India):</b> June 25, 2019  <b>MLI effective date, withholding taxes (Bulgaria):</b> January 1, 2023  <b>MLI effective date, withholding taxes (India):</b> First day of the next taxable period that begins on or after January 1, 2023  <b>MLI effective date, all other taxes (Bulgaria):</b> January 1, 2024  <b>MLI effective date, all other taxes (India):</b> July 1, 2023</p>	<p><i><b>Editor's Note.</b> This summary is based on the MLI positions submitted to the Depositary upon the deposit of the ratification instruments by Bulgaria and India, and does not constitute business, legal, tax, or other professional advice or services. It is intended only to provide a general guide. In applying the MLI provisions to this treaty, researchers should ensure they review other relevant MLI sources. Please see the Bloomberg Tax <a href="#">MLI Watch</a> page for further research.</i></p>
--	---

**Elimination of Double Taxation (MLI Article 5).** From the Options provided in MLI Art. 5, both Bulgaria and India chose to apply Option C, which replaces the exemption method with the credit method for the elimination of double taxation of income that, under this Convention, may be taxed in the source jurisdiction, and preserves the right of the residence

during a 365 day period preceding the alienation to be taxed in the other jurisdiction replaces Art. 14(4) of this Convention.

According to MLI Art. 9(8), the optional provision of MLI Art. 9(4) that allows gains derived by a resident of one jurisdiction from the alienation of shares or comparable interests deriving

GD will SFTP this SGML snippet to [BBNASCRIPTS@bfm1-sftp.bloomberg.com](mailto:BBNASCRIPTS@bfm1-sftp.bloomberg.com).

10. Use the SGML snippet to replace the corresponding SGML file in BWIP.
11. Release the SGML file in BWIP.
12. BDMs will then update the record and publish it to BTAX.
13. Check in BTAX to confirm the correct MLI box is published.
