SECTION 1 Instructions for Electronic Filing

INTRODUCTION

Vermont's MeF electronic filing program follows the same rules and guidelines as the IRS electronic filing program specified in the IRS Publications 4164 and 4163. Returns for the IRS and Vermont can be transmitted to a single point (the IRS). The IRS will forward the Vermont returns to Vermont for processing. Vermont will return acknowledgments back to the IRS where they can be picked up by transmitters.

Vermont will begin accepting production Fiduciary Income Tax Returns, corresponding forms and schedules beginning January 2019 for tax year 2018 by method of Modernized E-File System (MeF).

This handbook provides Preparers, EROs, Transmitters and Software Developers with necessary information to participate in the Modernized E-File Program and the list of Vermont forms that can be filed electronically. Items unique to Vermont will be identified and instructions provided.

Please use this handbook in conjunction with IRS Publication 4164 and IRS Publication 4163. The Vermont Department of Taxes conforms to all requirements, rules and regulations governing tax preparers set forth by the Internal Revenue Service.

Software Developers must provide the following information to the Vermont Fed/State coordinator prior to submitting test transmissions:

- Vermont Electronic Filing (MeF) Request for Participation Letter

VERMONT ELECTRONIC FILING FORMS

SECTION 2 The Filing Process

WHAT CAN BE TRANSMITTED ELECTRONICALLY

The Vermont electronic return will consist of data transmitted. An electronic return contains the same information as a comparable return filed entirely on paper.

Following is a list of all the XML forms that Vermont accepts electronically. Software Developers are not required to support all of the forms that Vermont accepts electronically. ERO's when purchasing software should verify with the software company that they will support the forms they desire to transmit electronically.

NOTE: If you receive a rejection notice for the Federal return, the state return does **not** get transmitted to Vermont. See page 12 for information on correcting a rejected transmission.

Allowable Filings

- Vermont filers with refund, zero balance, or balance due returns (including underpayment of estimated tax)
- Amended returns
- Extension to file Fiduciary Income Tax Return

ACKNOWLEDGMENT SYSTEM

Filing Acknowledgments:

IRS Acknowledgment If data meets specifications and the transmission is accepted, IRS acknowledges receipt of the Federal data and Vermont data. If the electronic returns do not meet the IRS specifications, both the Federal and Vermont returns are rejected. IRS generates the error code(s). Refer to Federal Publication 4164 and 4163.

Vermont Acknowledgment Vermont uses the State acknowledgment system operated by the IRS. This system may be accessed either directly or through your software product. Please refer to the software instructions for information concerning accessing and retrieving state acknowledgments.

All rejections, questions or difficulties with the Vermont Acknowledgment go to the Vermont Department of Taxes.

Contact Scott Kindestin
Vermont Department of Taxes
Tel: 802-828-6881
Email: scott.kindestin@vermont.gov

Accepted- This acknowledgment indicates the electronic return was received and successfully completed the pre-entry validation process. No further action is required regarding the transmission.

Rejected- This acknowledgment indicates the electronic return was received but failed to complete the pre-entry validation process. The acknowledgment contains the x-path, codes and error descriptions indicating the cause of the rejection. The error condition must be corrected and the return can then be re-transmitted as a “State-Only” transmission. See page 12 for information on correcting a rejected transmission.

SECTION 3 Other Situations

Refunds as Payments:

Taxpayers may elect to apply all or a portion of the overpayment to be credited to the next tax year.

Refund Delay: Delays may occur when additional information is required to verify entries.

Refund Status Tracer: A taxpayer or ERO may inquire about the status of a refund by

Calling the Department (802) 828-6880 (local & out of state)

BALANCE DUE RETURNS

Acknowledgment provided for each return filed

Vermont uses the State acknowledgment system operated by the IRS. This system may be accessed either directly or through your software product. Please refer to the software instructions for information concerning accessing and retrieving state acknowledgments.

If you do not receive an acknowledgment from Vermont within 5 days of receiving the federal acknowledgment, contact the Vermont Fed/State coordinator.

Security of information

- Return information is encrypted for secure transmission of confidential information.
- Filing electronically improves your disaster recovery plan by allowing you to store return copies on computer disks off-site.

ELECTRONIC FILING CATEGORIES

1. *Software Developers* create tax preparation and transmission software that formats electronic returns according to Vermont's electronic return specifications. The software and transmission data must be tested and certified by the Vermont Department of Taxes. To acquire Vermont State Acceptance Testing System information and letter of participation, contact the Vermont Fed/State filing coordinator.
2. *Electronic Return Originator (ERO)* is the tax preparer. The ERO prepares tax returns for electronic submission using tax preparation software approved by the Internal Revenue Service and the Vermont Department of Taxes. EROs may be the tax preparer who completes the return, or someone who transmits prepared returns. Check the Vermont Department of Taxes website for the date you can begin transmitting returns. **You do not need to send verification of IRS approval to begin filing with Vermont.**
3. *Transmitters* use approved software to transmit electronic returns directly to the Internal Revenue Service Center. You may be both an ERO and Transmitter, or the ERO may have an arrangement with a transmitter to use computer services.

SECTION 4 Responsibilities of EROs and Transmitters

TIMELINESS OF FILING

All prescribed due dates for filing of returns apply to MeF returns. If any due date falls on a Saturday, Sunday or legal holiday, the return must be filed by the next business day.

All Authorized Vermont EROs must ensure that returns are promptly transmitted. An electronically filed return is not considered filed until a Vermont acceptance acknowledgment has been received. It is ERO's responsibility to check for acknowledgment and contact the Vermont Fed/State Coordinator if an acknowledgment is not produced within 48 hours during the week or 96 hours if filed on Friday, Saturday or Sunday. If the electronic portion of a return is transmitted on or shortly before the due date and is ultimately rejected, see page 12.

The receipt of an electronic postmark will provide taxpayers confidence that they have filed their return. The date of the electronic postmark is considered the date of filing. All requirements as well as resubmitting a rejected timely filed return must be adhered to for the electronic postmark to be considered the date of filing.

AMENDED FILINGS

After an electronic return is acknowledged as accepted, it cannot be recalled, intercepted or changed in any manner. If either the ERO or taxpayer wishes to change any entries on an accepted electronic return, an amended return must be filed.

RESUBMISSION OF REJECTED TAX RETURNS

After an error acknowledgment is sent, Vermont monitors the timeliness of the correction. Revocation of privileges can be for erroneous returns or failure to provide a timely correction.

If an electronic acknowledgement has not been received within forty-eight (48) hours, or 96 hours if filed on Friday, Saturday or Sunday, the ERO should contact the Vermont Fed/State filing coordinator for further instructions. **It is the responsibility of the ERO to ensure that every return filed electronically is acknowledged as accepted.**

If Vermont rejects the return for processing, the ERO must take reasonable steps to inform the taxpayer of the rejection within 24 hours and provide the taxpayer with an explanation for the rejection. If the return is filed near or on the due date, the resubmitted return will be considered timely if the return is transmitted and accepted within 5 calendar days of the rejection.

If the electronic return cannot be corrected and retransmitted, the taxpayer must file a paper return. The paper return will be considered timely if it is filed by the due date of the return but no later than five calendar days after the date Vermont gives notification the return is rejected. The paper return should include an explanation of why the return is being filed after the due date and include a copy of the reject notification.

REQUIREMENTS TO PARTICIPATE

Authorized Electronic Return Originators (EROs) can submit returns to the IRS MeF system for federal and state return processing. Both Fed/State and State Only returns can be submitted through the Fed/State system. Each return (Fed/State or State Only) must be in a separate submission. Multiple submissions may be contained in a single message payload. Software developers must test with Vermont and receive approval prior to submitting live Fed/State or State Only returns.

- Ask the taxpayer if he or she wants to authorize you to discuss the return with the Department of Taxes and if yes, check the disclosure checkbox.
- Retain Vermont Form 8879-VT-F, with attachments, for three (3) years from the due date or the filing date, whichever is later. If the form is requested by the Vermont Department of Taxes, send the form and attachments within five (5) business days.
- Verify the bank account number if the taxpayer wishes to receive the refund through direct deposit.
- Verify the bank account number if the taxpayer wishes pay balance due through direct debit.

SECTION 5 Software Design Information

Vermont participates in the IRS Federal/State 1041 program. This allows the filing of both federal and Vermont tax returns using an XML format. The transmission method will be a Web service using Simple Object Access Protocol (SOAP), with attachments messaging.

DEVELOPER'S RESPONSIBILITIES

Software Developers should:

- Develop Vermont tax preparation software in accordance with statutory requirements and preparation instructions.
- Provide accurate Vermont returns in correct electronic format for transmission.
- Develop software capable of producing a printed copy of the complete electronic filing which includes a ***“Do Not Mail”*** watermark on the printed forms. Note: Paper documents are not to be sent to Vermont when filing electronically unless the taxpayer is specifically requested to do so.
- Provide data validation, verification, and error detection to prevent transmission of incomplete, inaccurate or invalid return information.
- Prevent filing any form not approved for electronic filing by Vermont.

SOFTWARE ACCEPTANCE, TESTING AND APPROVAL

Software Developers are required to test with Vermont for accuracy to ensure their software adheres to Vermont business rules, a successful transmission and receipt of acknowledgments. EROs must use tax preparation software that has been approved for use by Vermont.

Software Developers use Fed/State 1041 MeF forms based schemas and the Vermont forms base schemas/spreadsheet.

Edits and verification of business rules are defined for each field or data element. The state spreadsheet will include information on the field type, field format, the business rule and other edits. Developers should apply data from the state spreadsheet and tax forms to the appropriate data element in the XML schema.

The Vermont MeF E-File ATS test package will consist of documentation of special test conditions as well as copies of the state test returns, and will be made available to all Software Developers who indicate their intention to support Vermont MeF.

Vermont's starting test date is tentatively scheduled to begin in early November 2018 for tax year 2018 but is subject to IRS system availability.

Software Developers are required to fill out a Vermont Electronic Filing Request for Participation letter before beginning to test. An email is required to alert the e-file coordinator before submitting the first test file. You will receive an email if there is anything wrong with your file within 48 hours after transmittal. If errors are found you must resubmit the entire test package. A separate letter will be sent for an Online product and Preparer product. Once testing is completed you will receive a certification letter indicating you are approved for Vermont.

If the Software Developer is not acting as the ERO, the Software Developer is responsible for providing state acknowledgments to the ERO no later than two days after receipt. Failure to do so could lead to suspension from the Vermont Program.

Software errors which cause electronic returns to be rejected that surface after testing has been completed should be quickly corrected to ensure that the ERO has the ability to timely and accurately file its electronic returns. Software updates related to software errors should be distributed promptly to users together with any documentation needed.

GENERAL INFORMATION

Vermont will accept the following types of filing:

- Fed/State Original
- State Only

Fed/State Original- The Vermont MeF program works best when the federal and state returns are filed together in one transmission to the IRS (although this is not always possible). Upon receipt, the IRS will validate and verify the federal return data. The IRS will either accept or reject the federal return. The state return is made available to Vermont after the federal return is accepted by the IRS.

State Only- IRS provides the ability for an ERO to transmit and retransmit a state return through the Fed/State system without simultaneously transmitting a federal return. State Only returns are transmitted to the IRS, validated and made available for states to retrieve in the same fashion as the Fed/State Transmission. This provides a method for individuals who file multiple state returns to have each participating state's return filed electronically. Each state return must be transmitted separately. The taxpayer's federal return must be completed, transmitted and accepted by the IRS before transmitting/re-transmitting a State Only return.

Transmit data elements only if they contain data values. Do not send empty data elements (i.e., zero financial fields, unused elements, etc) unless that data element is required by Vermont's schema.

Detailed requirements for decimal placement in ratios and percentages are in the Vermont state-specific schema and /or data elements spreadsheet.

Software Developers must furnish electronic funds (direct debit) information for this payment option to taxpayers who electronically file a balance due return. Electronic funds withdrawal can be made from the taxpayers checking or savings account. Taxpayers can choose the date they want the amount owed withdrawn from their account. Partial payments can be made using electronic funds withdrawal.

Acceptance in the electronic filing program does not imply an endorsement by the Vermont Fed/State filing coordinator. Therefore, any public communication that refers to a user's electronic filing capabilities, whether through publication or broadcast, must clearly indicate acceptance of the user for electronic filing and does not constitute an endorsement or approval of the quality of tax preparation services provided by the Vermont Fed/State filing coordinator.

Vermont will monitor the quality of transmissions. If the quality deteriorates, the electronic filer will receive a warning, or in extreme cases, a letter suspending the electronic filer from filing electronic

MeF returns. When suspended, the retrieval process will be inactivated halting further processing of MeF electronic returns.

Electronic filers and EROs are expected to place the Taxpayer first in providing return preparation and transmission services. Regardless of changes in business address, company names, telephone numbers, organization, or personnel, the Taxpayer must always have convenient access to their return. This includes but is not limited to, access to current status of the return and access to the organization representatives to resolve any questions or concerns.

PARTICIPATION DENIAL OR SUSPENSION

Software Developers, Transmitters and EROs must maintain a high degree of integrity, compliance, and accuracy in order to participate in the Vermont MeF E-file program.

All Software Developers and EROs must comply with the requirements and specifications contained in the Vermont MeF E-file Handbook. Failure to comply with all requirements and specifications could result in being suspended from the program.

Additionally, Vermont reserves the right to deny participation in its program for the reasons listed below:

- If your company fails to adhere to the state MeF E-file program requirements and schema.
- If your company does not consistently provide error free returns.
- If your company uses unethical practices in return preparation.

Denial or suspension of participation in the MeF Fed/State Electronic Filing Program may occur if standards are not met. Denial or suspension to file Federal returns automatically revokes your ability to electronically file Vermont returns.

For failure to meet Vermont standards, the Vermont Department of Taxes will send a letter of explanation.

NATURE OF APPROVAL

Software Developers submit test cases for the primary purpose of assuring data transmissions are acceptable by Vermont. Approval by the Vermont Department of Taxes does not signify endorsement of any Software Developer program or the accuracy of the Software Developer program.

ADVERTISING AND PROGRAM LOGO

You can show that you are authorized to transmit Federal and Vermont returns electronically by using this logo, subject to IRS restrictions, in your advertisements. ***Only the IRS-created electronic filing logo may be used.*** The IRS created this logo to give a consistent image to the program. SECTION 6 Questions

FREQUENTLY ASKED QUESTIONS

I am an out-of-state ERO/Transmitter, do I need to pre-register with Vermont before sending Fed/State Returns?

No. Vermont Department of Taxes does not require out-of-state EROs/Transmitters to register before transmission. However, each ERO/Transmitter is responsible for making sure they are using a Vermont certified software that has been tested and approved by the Department and is registered with the IRS to electronically file returns.

What do I keep on file for Fed/State E-File returns?

Complete Form 8879-VT-F, Vermont Fiduciary Income Declaration for Electronic Filing, Vermont forms or schedules.

Do I send anything to the Vermont Department of Taxes for Fed/State E-File returns?

Do NOT send anything. Keep the returns and supporting documents on file should the Department request copies.

Can I attach PDF's to the Vermont Department of Taxes for Fed/State E-File returns?

There is no requirement to send additional information in this manner, however you may attach PDF files as you deem necessary. Though there is no defined size limit, keeping attachments as small as possible will help ensure successful transmission of returns. If the Department needs additional supporting documents, they may also request them in writing.

Does the Department ask for paper documents for e-filed returns?

Occasionally, the Department needs a source document to complete return examination. If needed, the Department will make a request for a specific document. Do NOT send in any documents if not requested.

How do you pay a tax due for electronically filed returns?

Tax due must be paid by the due date to avoid interest and penalty charges.

You can pay the tax by

- ACH DEBIT when filing through the Vermont MeF E-File program.
- CHECK or MONEY ORDER assure proper crediting of your payment, use the, FIT963 Fiduciary Income Tax Payment Voucher, generated by your software.

What do you do when the electronically filed return is rejected?

First, be vigilant on checking the acknowledgment system for acceptance or rejection of the return. Remember that if the Federal return is rejected, the Vermont return will not be transmitted even if there is nothing wrong with the Vermont return.

Next, determine the rejection reason. If the cause of rejection can be corrected, do so and resubmit the return. In some instances, this may be a “STATE ONLY” return.

If you e-filed the return close to or on the due date, you have five calendar days to correct the cause of rejection and resubmit the return to be considered a timely filing.

For paper filing of the rejected return, it will be considered timely if received within five calendar days of the due date. Consideration on a case-by-case basis may be given to allow timely filing for a rejected e-filed return based on the days between rejection and receipt of the return.
