

2019 Instructions for Form FTB 3504

Enrolled Tribal Member Certification

General Information

The instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the California Revenue and Taxation Code in the instructions. Taxpayers should not consider the instructions as authoritative law.

Generally, California taxes the entire income of California residents, and the California source income of nonresidents. However, if you meet certain requirements, your income is exempt from California tax.

For taxable years beginning on or after January 1, 2018, for your income to be exempt from California tax, you must meet the following requirements:
