#### Rebranded Software Products

Software Companies: Use this section only if this product is rebranded with the approval of the Software Publisher, who is the original creator of the software and signer of the LOI. It is the position of the STAR Working Group under the auspices of the IRS Security Summit that:

- Rebranding where the software publisher makes all code changes to generate the rebranded software and ensures that the rebranded software meets the applicable requirements (Trusted Customer, Generation of Authentication Elements, Generation of LEADS reports, STAR Requirements, etc.) does not pose any additional risk to the tax ecosystem.
- Rebranding where the organization who rebrands the software has the capability to make cosmetic changes including but not limited to color or font but cannot make changes to the applicable requirements (listed above) does not pose additional risk to the ecosystem.
