Instructions for *Michigan Net Operating Loss Deduction (Form 5674)*

Purpose

Form 5674 is used to compute the current year Michigan net operating loss (NOL) deduction from available Group 1 and/or Group 2 NOLs. Form 5674 is required when claiming an NOL deduction on the Michigan Schedule 1. Both the Schedule 1 and Form 5674 must be included with the MI-1040 when claiming an NOL deduction. This form is supported by Schedule MI-1045 for the loss year. For more information on NOLs, see *Michigan Net Operating Loss Schedule (Schedule MI-1045)* instructions.

Group 1

Group 1 NOLs are those created in 2017 and prior. A Group 1 NOL has a carryforward period that is limited to 20 consecutive years following the loss year.

Group 2

Group 2 NOLs are those created in 2018 and future years. A Group 2 NOL can be carried forward indefinitely following the loss year. Michigan follows IRC 172, therefore, any carryforward of a Group 2 NOL is limited to the lesser of the Michigan NOL deduction or 80 percent of Michigan taxable income before exemptions. Group 2 NOLs also include any Michigan excess business loss from the previous year, if applicable. The Michigan excess business loss may only be carried forward.

NOL Carryforward

To claim a carryforward of a Group 1 NOL(s) and/or a Group 2 NOL(s), complete Form 5674 to determine your Michigan NOL deduction. The NOL deduction computed on Form 5674 is entered on Schedule 1 as a subtraction. For tracking purposes, unused Michigan NOLs from multiple tax years must be combined in their respective group, Group 1 or Group 2, after required modifications. All NOLs must be substantiated on a Schedule MI-1045 with required supporting documentation for each loss year (see "Required Supporting Documentation"). The NOL carryforward must be reported in consecutive years including those without Michigan taxable income (before exemptions). A schedule demonstrating how the Michigan NOL was absorbed must be included. For assistance, refer to the "Michigan NOL Carryover Worksheet" available on Treasury's Web site.

The amount of the combined Michigan NOL carryover must be reduced by any Michigan sourced excess capital loss and other modifications required under IRC 172 or elections under IRC 965 claimed in the previous carryover year. For example, if excess capital loss and domestic production activities deduction (DPAD) were in your 2018 adjusted gross income (AGI), your NOL carryforward claimed in 2019 must be reduced to the extent the deductions reduced 2018 Michigan taxable income.

Keep all records that substantiate an NOL for 6 years after the NOL expired (for Group 1 NOLs) or was absorbed (for Group 1 and Group 2 NOLs).

Line-by-Line Instructions for Form 5674

Lines not listed are explained on the form.

Line 1: If there was a change in filing or marital status in any years since an NOL was created, the allowed NOL deduction may be affected. See IRS Publication 536 to determine how to compute your share of a Michigan NOL and/or how to recompute your Michigan income subject to tax, in accordance with your situation for purposes of this form. Complete Form 5674 according to the form instructions, except when instructed differently below.

If your situation requires you to recompute your Michigan NOL: Enter any recomputed Group 1 NOL(s) on line 2. Enter any recomputed Group 2 NOL(s) on line 3. Include a separate computation showing how the Group 1 and/or Group 2 NOL(s) were recomputed.

If your situation requires you to recompute your Michigan income subject to tax on this form: Enter your share of AGI included in MI-1040, line 10 on line 4. Enter your share of additions included in Schedule 1, line 9 on line 5. Enter your share of subtractions included in Schedule 1, line 26, as a negative number, on line 6. Include a separate statement detailing which items of income or loss included in AGI are yours, include the type and location for each item listed.

Line 3: Combine the Group 2 NOL(s) with the prior year Michigan excess business loss, if applicable. The Michigan excess business loss is found on 2018 Form MI-461 line 10, column E.

Line 12: If income subject to tax before any Michigan NOL deduction (line 7) is zero or less, there is no income to be offset by a Michigan NOL deduction. This line combines the Group 1 and Group 2 NOL(s) to report the NOL carryforward. However, the NOL deduction in the following year must be separated into their respective group(s), Group 1 or Group 2, after required modifications.

Required Supporting Documentation

To help reduce processing delays, review the following to ensure all supporting documents are included when claiming an NOL deduction.

- MI-1045 and all supporting documentation (if not already provided to the Michigan Department of Treasury for the loss year). See *Michigan Net Operating Loss Schedule* (Schedule MI-1045) instructions.
- A schedule demonstrating how the Michigan NOL was absorbed. For assistance, see “Michigan NOL Carryforward Worksheet” available on Treasury’s Web site.
- If the box on Form 5674, line 1 is checked, provide the calculation showing how you redetermined your Michigan NOL and/or Michigan income subject to tax.
