Instructions for *Michigan Farming Loss Carryback Refund Request (Form 5603)*

Purpose

Form 5603 is used to claim a refund from the carryback of a Group 2 TCJA net operating loss (NOL) attributable to a farming loss. This form is supported by Schedule MI-1045 for the loss year. If an election was made on Schedule MI-1045 to forgo the entire carryback period, then do not file this form. Once the election is made, it is irrevocable.

An amended MI-1040 may not be filed in lieu of Form 5603 to claim a carryback refund. For more information on NOLs, see *Michigan Net Operating Loss Schedule (Schedule MI-1045)* instructions.

NOTE: To request a refund from a 2018, 2019 and 2020 NOL carryback use Form 5603-CARES Act.

Group 1 NOLs

Group 1 NOLs are those created in 2017 and prior. For a Group 1 NOL carryback, see 2017 Form MI-1045 and instructions.

Group 2 NOLs

Group 2 CARES NOLs are those created in 2018, 2019 and 2020. Use Form 5603-CARES Act to carryback a loss created in these years.

Group 2 TCJA NOLs are those created in 2021 and future tax years. A Group 2 TCJA NOL carryback is limited to the portion of the NOL that is attributable to a farming loss from a farming business. Michigan follows IRC 172, therefore, any carryback of a Group 2 NOL is limited to the lesser of the Michigan NOL deduction or 80 percent of Michigan taxable income before exemptions and previously claimed NOL deductions. A Michigan excess business loss computed on Form MI-461 that may contain a farming loss cannot be carried back.

Farming Loss Carryback

The federal 2017 TCJA limits the carryback of a Group 2 TCJA NOL to only the portion of the NOL that is attributable to a farming loss from a farming business. A carryback of a non-farming Group 2 TCJA NOL is not allowed. The term “farming business” is defined in IRC

263A. Farming loss, as defined in IRC 172, means the lesser of: the amount which would be the NOL for the taxable year if only income and deductions attributable to a farming business is considered or the amount of the NOL for such taxable year. Generally, the farming NOL carryback is limited to the two taxable years preceding the year of the loss. The farming carryback is subject to the 80 percent limitation, which is computed without regard to exemptions or any previously claimed NOL deduction. Any unused NOL may be carried forward indefinitely until absorbed.

When carrying back a Michigan farming NOL to prior years, Schedule MI-1045 and supporting documentation must be filed within four years after the date set for filing the return for the year in which the NOL was incurred. For example, if the NOL is created in 2021, the 2021 return is due April 18, 2022. Form 5603 must be filed by April 18, 2026 to carry back the 2021 Michigan farming NOL to a year that is otherwise outside the general four-year statute of limitations period to claim a refund. If Form 5603 is filed after the four-year statutory period has expired, no refund is allowed for the carryback year. However, after absorbing the farming NOL in those carryback periods, a carryforward may still exist to offset income in subsequent years.

After the loss is carried back to the earliest year allowed, the carryover must be reduced by any Michigan sourced excess capital loss and other modifications required under IRC 172 or elections under IRC 965 claimed in the carryback year(s). For example, an NOL created in 2021 is carried back to 2019. The 2019 adjusted gross income (AGI) included excess capital loss and domestic production activities deduction (DPAD). Therefore, the NOL created in 2021 that is carried back to 2019 must be reduced to the extent the deductions reduced 2019 Michigan taxable income before exemptions. Any remainder may be carried forward. This adjustment occurs in Part 3 of Form 5603.
