NOTE: To request a refund from a 2018, 2019 and 2020

created in these years. Group 2 TCJA NOLs are those created in 2021 and future tax years. A Group 2 TCJA NOL carryback is limited to the portion of the NOL that is attributable to a farming loss from a farming business. Michigan follows IRC 172, therefore, any carryback of a Group 2 NOL is limited to the lesser of the Michigan NOL deduction or 80 percent of Michigan taxable income before exemptions and previously claimed NOL deductions. Any unused NOL may be carried forward indefinitely until absorbed. When carrying back a Michigan farming NOL to prior years, Schedule MI-1045 and supporting documentation must be filed within four years after the date set for filing the return for the year in which the NOL was incurred. For example, if

the NOL is created in 2021, the 2021 return is due

filed after the four-year statutory period has expired, no

refund is allowed for the carryback year. However, after

absorbing the farming NOL in those carryback periods, a

carryforward may still exist to offset income in subsequent

years. After the loss is carried back to the earliest year allowed, the carryover must be reduced by any Michigan sourced excess capital loss and other modifications required under IRC 172 or elections under IRC 965 claimed in the carryback year(s). For example, an NOL created in 2021 is carried back to 2019. The 2019 adjusted gross income (AGI) included excess capital loss and domestic production activities deduction (DPAD). Therefore, the NOL created in 2021 that is carried back to 2019 must be reduced to the extent the deductions reduced 2019 Michigan taxable income before exemptions. Any remainder may be carried forward. This adjustment occurs in Part 3 of Form 5603.
