A current year decrease in employment (Line 7) will reduce Number of New Jobs Eligible for Credit (Line 17) for the current year. This is in contrast to an increase of employment in which the increase is delayed a year. A qualifying level of increase of employment must be in a single reporting period. An employer may not combine two or more periods of increases in employment to qualify for a certain level of employment. A period is assumed to be a full fiscal or calender year. For additional information, see Title 35, Part X, Chapter 01 of the Mississippi Administrative Code for Limitations. Attach a schedule listing new full-time jobs created (title, date created and payroll amount for each year). Attach this form, and the Income Tax Credit Summary (Form 83-401), to your return.
