To: Individual Income Tax Software Vendors

Subject: Montana Controlled Launch Participation

Good afternoon,

Montana has updated the schema for Individual Income Tax Form 2 to correct the limitation on the Federal EITC. Specifically, the limitation on ReturnState/ReturnDataState/FormMTForm2/Form2/TaxCreditPayments/FederalEITC has been updated to this year's amount of \$7,430.00. The only .xsd file that is impacted is MTIndividual2023V1.0\MTIndividual\MTForms\FormMTForm2.xsd.
