999-99-9999

The New Mexico Taxation and Revenue Department developed Schedule PIT-Z to manage late legislative changes affecting the New Mexico Personal Income Tax Return, Form PIT-1. The purpose of PIT-Z is to manage any changes needed to PIT-1, or any of its schedules, that result from a law change occurring after the forms have gone to the printer. The design image of the form is maintained on the software developer website only.

Until a form change is identified, Schedule PIT-Z will remain unfinished. The format for the barcode, the title, and three tentative line items are identified. When a law change is identified that requires the Department to add one or more line items to PIT-1 or any of its schedules, the Department will modify the PIT-Z design image and notify software developers that the form needs to be submitted for approval.
