GENERAL INFORMATION

A credit is allowed for investments in qualified clean-burning motor vehicle fuel property.

- Use Part 1 to compute the credit for the purchase or conversion of a qualified motor vehicle. The credit from Section A is carried to Form 511CR, line 3a.
- Use Part 2 to compute the credit for property directly related to the delivery of a qualified fuel into the fuel tank of a motor vehicle and the storage of such fuel or for a public access recharging system for vehicles propelled by electricity.
- Use Part 3 to compute the credit for a natural gas refueling station in a private residence.
- Use Part 4 to determine the total credit from Part 1, Section B; Part 2 and Part 3 to carry to Form 511CR, line 3b.

PART 1 - CREDIT FOR PURCHASE OR CONVERSION OF A QUALIFIED MOTOR VEHICLE

A credit equal to 45% of the cost of the qualified clean-burning motor vehicle fuel property is allowed. For purposes of this credit "qualified clean-burning motor vehicle fuel property" means:

- Equipment installed to modify a motor vehicle which is propelled by gasoline or diesel fuel so the vehicle may be propelled by compressed natural gas, liquefied natural gas or liquefied petroleum gas. The equipment must be new, not previously used to modify or retrofit any vehicle propelled by gasoline or diesel fuel, and be installed by an alternative fuels equipment technician who is certified in accordance with the Alternative Fuels Technician Certification Act. The equipment must either meet all Federal Motor Vehicle Safety Standards set forth in 49 CFR 571, or for any commercial motor vehicle (CMV), follow the Federal Motor Carrier Safety Regulations or Oklahoma Intrastate Motor Carrier Regulations.
- A motor vehicle originally equipped so the vehicle may be propelled by compressed natural gas, liquefied natural gas or liquefied petroleum gas, but only to the extent of the portion of the basis of such motor vehicle which is attributable to the storage of such fuel, the delivery to the engine of such motor vehicle of such fuel, and the exhaust of gases from combustion of such fuel.

If the above credit has not been claimed by any prior owner and the vehicle is purchased with qualified clean-burning motor vehicle fuel property installed by the manufacturer of such motor vehicle and you are unable or elect not to determine the exact basis which is attributable to such property you may claim a credit equal to the lesser of 10% of the cost of the motor vehicle or \$1,500.

If the credit is being claimed for more than one vehicle, complete a separate Form 567-A for each vehicle. Combine the amounts from Part 1, Section A, line 3 of all Forms 567-A and enter the total on Form 511CR, line 3a. Combine the amounts from Part 1, Section B, line 5 of all Forms 567-A and enter the total on only one Form 567-A, Part 4, line 1.

General Information and Definitions

68 OKLAHOMA STATUTES (OS) SEC. 2357.22 AND RULE 710:50-15-81

The term "motor vehicle", for purposes of the clean-burning motor fuel property credit, does include forklifts and other similar self-propelled vehicles. "Vehicle" does not mean conveyor belts or other similar items.

An entity that converts property to qualified clean-burning motor vehicle property may lease such property and retain the right to claim the credit.

Only conversions to those fuels listed on this form as "qualified clean-burning fuel" qualify for this credit. The conversion of a vehicle to be propelled by any other fuel, such as to ethanol or E-85, does not qualify.

Property on which the credit has previously been claimed is ineligible for the credit.

Married persons who file separate returns for a taxable year in which they could have filed a joint return may each claim only 1/2 of the tax credit that would have been allowed for a joint return.

"Motor vehicle" means a motor vehicle originally designed by the manufacturer to operate lawfully and principally on streets and highways.

There is a five year carryover provision for any credit allowed but not used.

Notice

Tax credits transferred or allocated must be reported on Oklahoma Tax Commission (OTC) Form 569. Failure to file Form 569 will result in the affected credits being denied by the OTC pursuant to 68 OS Sec. 2357.1A-2.
