FORM 573 2019

Taxpayer's First Name and Middle Initial Last Name

Taxpayer Social Security Number

Table with 2 columns: Description and Amount. Rows 1-22 detailing farm income averaging calculations for 2016, 2017, and 2018, ending with a total tax amount of 00.

FARM INCOME AVERAGING INSTRUCTIONS

Use Form 573 to elect to figure your 2019 tax by averaging, over the previous 3 years (base years), all or part of your 2019 taxable income from your trade or business of farming. Making this election may give you a lower tax if your 2019 income from farming is high and your taxable income for one or more of the 3 prior years was low.

Line 2: Your “elected farm income” is the amount of your taxable income from your farming business, as defined in IRC Section 263A(e)(4), that you elect to include on line 2. You do not have to include all of your taxable income from farming on line 2.

A gain from the sale or other disposition of property, other than land, regularly used by you in your farming business for a substantial period shall be treated as attributable to such farming business.

Lines 5, 9, and 13: If your deductions exceed your gross income for any year that is a base year for 2019 (2016, 2017 or 2018), your taxable income for farm income averaging purposes for such year may be a negative amount. **However**, when you enter your taxable income,

- do not include such year’s Net Operating Loss (NOL). The amount of the NOL, from your 511-NOL Schedule A or your 511NR-NOL Schedule A “Federal Amount Column”, that is being carried to another year should be added back to arrive at the amount of the taxable income to enter.
- do not include any of an NOL carryover or carryback that was not used (absorbed) in such year. The amount of the NOL, from your 511-NOL Schedule B or your 511NR-NOL Schedule B “Federal Amount Column”, that is being carried over to the following year should be added back to arrive at the amount of the taxable income to enter.

Line 22: Enter your tax on Form 511, line 14 or Form 511NR, line 15 and enter a “1” in the box for “Farm Income Averaging”.
