# Substitute Forms Approval Process

Forms should be submitted via PDF attached to an email. This will help ensure a faster turnaround time.

Submit one .pdf file for each form being submitted for approval. *[for testing]*

- Each file must include the following:
  - Blank form *[layout]*
  - Form with useful **pertinent data for the corresponding field**. (ex: 0.1234) *[calculation]* Forms will **not** be accepted with all Zs or all 9s.
- Each submission should include a cover letter identifying the forms submitted, the company name of the submitter, NACTP vendor ID and the name, address, phone/fax number and email address of the form contact.

Approvals are processed in the order of receipt and any approvals or requests for changes will be sent back within 10 business days.

Approval or request for change notifications received will be sent to the developer via email.

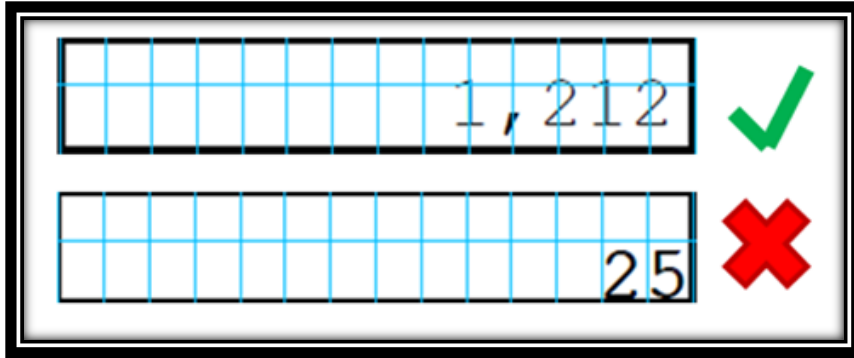

*Request for substitute form approvals should be sent to:*

## 6X10 Grid Forms

511, 511-CR, 511-NR, 511-V, 538-H, 538-S, 512, 512-E, 512-S, 512-S-SUP, 512-TI, 512-TI-SUP, 513, 513-NR, 514, 514-SUP, FRX

*Some of our fields contain extra grid space; in this case please center data within the field as shown in the example below:*

## Oklahoma QR Codes for TY2022

### QR Code Dimensions

Code Type: Text

Text Content: Year (4)/Form Number (5)/Pages (2)/Source (1)/Vendor Code (4) – Both alpha and numeric characters are used. Alpha in caps.

Error Correction: L-Appx 7% (default)

Margin: 0 blocks

Scale: 1X

Code Color: 000000

This generates a QR code with dimensions of 0.5833” by 0.5833” that is resized down to 0.5” to 0.5” before placing on the form (0.5 inch minimum).

Encoded carriage returns are prohibited.

Maintain a quiet zone (white space) of 4 modules around QR code as shown in the example in Figure 1 on page 12.

### QR Code Data Details

Example of data in the QR code presently used for income tax:

Form 511 “Oklahoma Resident Income Tax Return” – **20220051101DXXX**

**2022** – For all year specific forms. All non-year specific forms get 9999 for the year.

Example of non-year specific form: 99990020001WXXXX

**00511** – Form number (if a form number is less than 5 characters, zeros filled to make 5. For example, Form 511 would be 00511).

Updated: September 20, 2022

Posted at [DeveloperDraftsFinals.pdf](#)  
([oklahoma.gov](#))

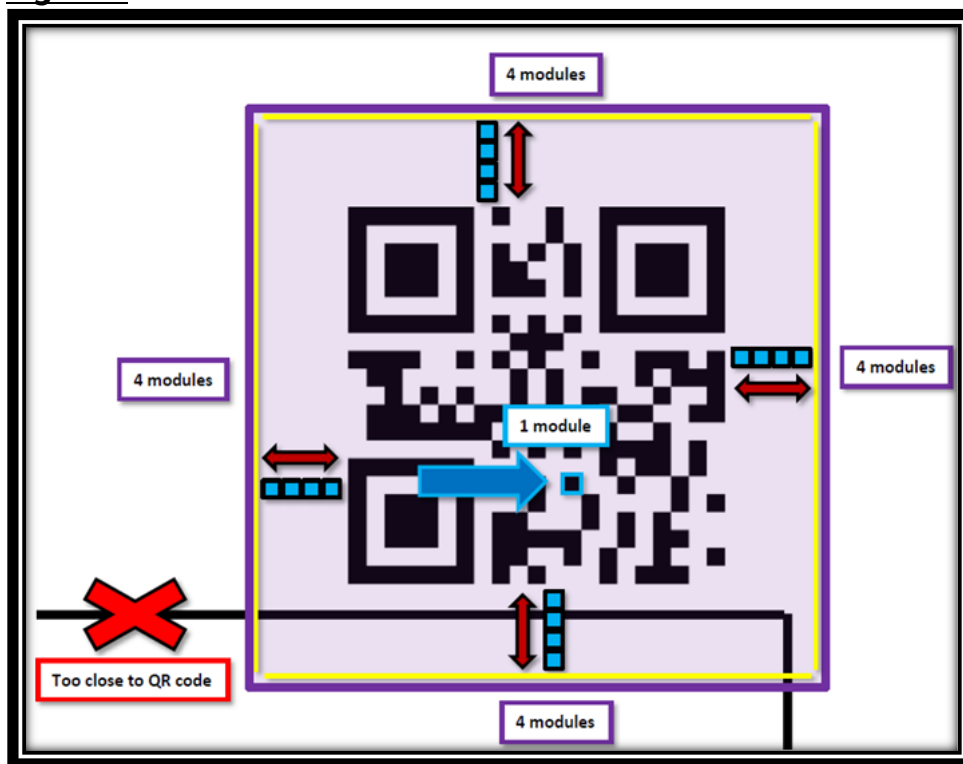

**01** – Page number (if a form has more than one page with data that a taxpayer fills out, each page’s QR code reflects that page’s number. Instruction pages do not get a QR code).

**D** – Source code (where the form came from. Examples: W for web, M for mail out, D for developer, etc.).

**XXXX** – The four X’s after the Source Code are the Vendor code. Vendor codes should be included in the QR code rather than on the form itself.

Example of QR code with vendor code: 20220051101D1695 with 1695 being the OTC vendor code.

**Figure 1:**

## PDF 417 2D Barcode

The following guidelines are to be upheld for the current tax years and all form types that utilize a 2D barcode. Those form types for the 2022 tax year are OK511, and OK511NR. Each form will have four 2D barcodes.

## Field Standards for the 2D Barcode

The delimiter between fields will be “Carriage Return”.

Unless otherwise stated in specifications, all numerical fields are 11 characters.

Negative values should be formatted with the minus sign placed before the numerical characters. Example: -100

Use whole dollars only.

Date format should be MMDDYYYY.

Unless otherwise noted, check boxes should export the following values:

Checked = X

Not Checked = Null

Do not zero fill fields, use Null.

Truncate any characters over the specified field limit (example: name or address longer than field length).

Do not use any punctuation (no commas, periods, percent signs). Alpha fields should contain only A-Z. Numerical fields should contain only 0-9.

## Placement of 2D Barcodes

The four 2D barcodes must be placed on a separate page. They will be arranged vertically, in order and in center alignment. An example for this page can be found on page 16 of this document. This page will have the following header.

511

2021 Form 511 Resident Income Tax Return 2D barcode Page	<b>FAILURE TO SUBMIT THIS PAGE WILL DELAY PROCESSING OF YOUR RETURN</b>

511NR

## 2D Barcode Dimensions and Specifications

X dimension = **14 mils** minimum

Y/X ratio = **3**

Error Correction Level (ECL) must be set to **4**.

Barcode must be set to **ON**.

Exceptions:

- The 538-S return dependent SSN information is included in the 2D barcode. The 538-S form should be attached to the 511 return when mailed to OTC.
- If there are more than 5 dependents on the 538-S, attach a separate page with the additional 538-S dependent information.
- 538-H information is not included in the barcode. The 538-H should be mailed in separately to:

Oklahoma Tax Commission  
PO Box 26800  
Oklahoma City, OK 73126-0800

## Mailing Address for 2D Returns

Taxpayers are to mail 2D returns to:

Oklahoma Tax Commission  
PO Box 26800  
Oklahoma City, Ok 73126-0800

## Barcode Testing Process

Those software developers who are supporting Oklahoma 2D barcode returns must test with OTC prior to releasing their software to clients or the general public.

## Test Criteria 511 & 511-NR

Test returns for Form 511 are to be based off the ATS test criteria available on the FTA SES (Federal Tax Administrators State Exchange System) website <https://taxadmin.kiteworks.com>. To gain access to this website, please contact Crystal Cameron ([efiledevelopers@tax.ok.gov](mailto:efiledevelopers@tax.ok.gov)).

Test returns for form 511-NR should be done using the same ATS test criteria with developer discretion to use whatever residency status and federal data, but ensure the federal column of line 2 is populated.

There should be a mention on the 2D barcode page of 511 2D and 511-NR 2D forms to remind taxpayers that the 2D barcode page is required to be sent with their 2D returns. It should NOT be attached with the payment voucher, form 511-V. Please see the example on Page 16.

## 2D Test Return Submissions

Forms should be submitted via PDF attached to an email. This will help ensure a faster turnaround time.

Test returns should be directed to:

Primary: CPD Developer Forms\_TAX [cpddeveloperforms@tax.ok.gov](mailto:cpddeveloperforms@tax.ok.gov)  
Phone: 405.522-8967  
Fax: 405.522.4373

Phone: 405.522.5965  
Fax: 405.522.4373

Thank you for supporting Oklahoma 2D barcode processing.
