SUBSTITUTE FORMS – GENERAL

Vermont will accept submittals (in subset groups only) based on DRAFTS. If your submitted forms meet our approval, we will give PRELIMINARY approval. When the forms are posted as FINAL, we will send a second email to you. If there have been changes to the forms, we will notify you of those changes and request a resubmittal. If no changes are made, the second email will be a FINAL approval. **FORMS THAT ARE IN “PRELIMINARY APPROVAL” STATUS SHOULD NOT BE DISTRIBUTED FOR USE.**

Please provide users with printing instructions to ensure that their printed returns match the samples you submitted for approval.

SUBSTITUTE FORMS

Substitute forms must be reproduced to match the official forms as closely as possible. All variable data fields must be in absolute positions. We will reject forms our scanning equipment cannot read.

When reconstructing forms, be aware of the following:

- Lines of text in paragraph must break at the exact location as the official forms.
- Match the font sizes of the official forms as closely as you can. Use bold fonts as they appear on the official forms.

PAPER AND INK

Paper for substitute forms must be at least 20 lb. white stock and the same size as the Department's original (8 ½ x 11 unless otherwise specified).

Forms and payment vouchers must be the same size as the officially printed forms and vouchers.

Software must inform taxpayers to submit originally printed forms and schedules for processing.

VARIABLE DATA FIELDS

USE COURIER or COURIER NEW 12 POINT FONT FOR ALL DATA FIELDS.

Data placement is specified as exact positions using a 10/6 grid -- 10 spaces per horizontal inch and 6 lines per vertical inch. Beginning grid position and maximum length of field is given in these specifications.

DO NOT print internal codes, date/time stamps, distribution information, etc. above the barcode or title of the form.

Alpha characters must be in **UPPERCASE** only.

Do not allow more characters in the body of the form than is allowed by "Maximum Field Length." Examples: 1) Do not allow 45 characters in the mailing address because the maximum length only allows 36 characters.

DOLLAR AMOUNTS

- All forms and schedules are whole dollar only.
- Do not use commas as thousand separators.
- All amount fields are right justified.
- If negative value, do not print minus sign "- ". Make sure there is an "X" in the loss checkbox.
- If no taxpayer entry, fields must be left blank except for hard coded zeros. Do not use non-numeric characters such as NONE, N/A, ZERO, etc. in the amount fields.

CHECKBOXES

- Must be formatted as blank or X only.

DATES

- Do not print slashes or dashes except for hard coded slashes.
- Date format: MMDDYYYY

TELEPHONE NUMBERS

- Do not print parentheses or dashes

TEST CASES AND SAMPLE DATA

Test cases will be posted to the FTA website. The test cases are designed to look for specific issues that we have experienced with each form. It is imperative that you use all the information provided in each test case, not just the name and address. **If the sample(s) submitted do not use the test case information provided, the forms will be rejected.**

DUE DATE

First submittals for substitute forms approval must be received by the Department no later than Friday, January 3, 2022. First submittals received after January 1, 2022 will not be approved.

SUBMITTING FORMS FOR APPROVAL

When submitting forms for approval, please submit one blank form, one of each test cases using the samples posted on the FTA website and one full-field form. Please include your e-mail address in your cover letter. We will give approval/disapproval via e-mail.

Blank forms - must include the barcode, text and drawn lines on the form. **Blank** forms must NOT have ANY variable data.

Sample data - forms must be created using the test cases found on FTA SES website. If our test cases are not used, then submitted forms will not be tested or approved.

Full-field forms - each field must be filled with numbers and/or letters to show the maximum field lengths while conforming to specifications. Example: If a field is a numeric field, do not fill with letters. In cases of "check one box" or Yes/No boxes, only one box needs to be checked on the full-field form.
